### FINANCE ACCOUNTS OF THE CENTRAL GOVERNMENT FOR THE YEAR 1940-41 AND THE REPORT OF THE AUDITOR GENERAL OF INDIA.

Certificate of the Auditor General of India.

This compilation containing the Finance Accounts of the Central Government for the year 1940-41 and the report of the Auditor General of India presents the accounts of the receipts and outgoings of the Central Government for the year, together with a report on the financial results disclosed by the different accounts and other data coming under examination, that is to say, both the revenue and capital accounts, the accounts of the Public debt and the liabilities and assets of the Central Government as deduced from the balances recorded in its books and other information. It supplements the reports of the Auditor General of India on the accounts of the audited expenditure of the Government for the year, separately presented in the form of Appropriation Accounts for each Grant. In compliance with Section 169 of the Government of India Act, 1935, the Auditor General's report on the accounts accompanied by the accounts themselves is submitted by the Auditor General to the Governor General to be laid before the Legislature.

The accounts for 1940-41 which as Auditor General I am required to audit, both the Finance Accounts and the Appropriation Accounts, have been examined under my direction in accordance with the provisions of the Government of India (Audit and Accounts) Order, 1936. Likewise, as prescribed by Section 170 of the Government of India Act, 1935, the accounts of transactions of the Government in the United Kingdom have been audited by the Auditor of Indian Home Accounts under my general superintendence. It is to be noted that the Auditor General's responsibility for the audit of the accounts of the Government does not extend in full to the audit of the accounts of revenue, but I am satisfied on the best information available that the accounts of revenue included in the Finance Accounts herewith presented give a correct statement of the sums brought to account. Subject to these observations and also to those contained in the detailed reports which follow and in the reports on the Appropriation Accounts, the accounts now presented are correct statements of the receipts and outgoings of the Central Government for the year 1940-41.

A. C. BADENOCH,

Auditor General of India,

New Delhi;
The 30th March 1942.

### A.—GENERAL FINANCE ACCOUNTS.

### I.—REPORT.

### INTRODUCTORY.

- 1. Main Divisions of Accounts.—There are four main divisions of Government accounts:—
  - (1) Revenue.
  - (2) Capital.
  - (3) Debt.
  - (4) Remittance.

The first division deals with proceeds of taxation and other receipts classed as revenue and the expenditure therefrom, the net result of which represents the revenue surplus or deficit for the year. The second division deals with expenditure met usually from borrowed funds with the object either of increasing concrete assets of a material character, or of reducing recurring liabilities, such as those for future pensions by payment of the capitalised value. It also includes receipts of a capital nature which can properly be applied as a set-off to capital expenditure. The third division comprises receipts and payments in respect of which Government incurs a liability to repay the money received or has a claim to recover the amounts paid, together with repayments of the former and recoveries of the latter. The fourth and last division embraces all merely adjusting heads: e.g., cash remittances from one treasury to another, transfers between different accounting circles and remittances between India and England. Credits and debits taken to the adjusting heads in the first instance are cleared eventually by adjustment under final heads.

The transactions included in these accounts represent mainly the actual cash receipts and disbursements during the financial year April to March, as distinguished from amounts due to or by Government during the same period. The cash basis system is, however, not entirely suitable for recording the transactions and presenting the true state of affairs of Government Commercial undertakings run on commercial principles. The detailed accounts of this class of undertakings are, therefore, maintained outside the regular accounts in proper commercial form and these accounts are subjected to a suitable check by the Indian Audit Department.

2. Sections and Heads of Accounts.—Within each of the four divisions mentioned above, the transactions are grouped into Sections which are further subdivided into Major Heads of Accounts. The Sections are distinguished by letters of the alphabet, a single letter denoting the Revenue portion and a double letter denoting the Capital portion of a particular category of transactions. The Major Heads in the Revenue and Capital divisions are numbered serially, Roman numerals being employed on the receipt side and Arabic on the disbursement side. No numbering is adopted for Del.t and Remittance heads, though these are also arranged in Sections.

The Major Heads are sub-divided into Minor Heads and the Minor Heads into Sub-heads and Detailed heads. Under each of the Major and Minor Heads, the expenditure is shown distributed between non-voted and voted. The Major and Minor Heads and the Sub-heads prescribed for the classification of expenditure in the general accounts are not necessarily identical with the Grants, Sub-heads and other units of allotments which are selected by the Finance Department for the Demands for Grants and the Appropriation Accounts; but in general, a certain degree of correlation is maintained between the Demands for Grants and the Appropriation Accounts on the one hand and the Finance Accounts on the other.

3. Balances and Reserves.—The accounts work from balance to balance, these balances working up to the general cash balances, which are kept partly in treasuries in India and partly in the Bank of England, London, while the rest is deposited with the Reserve Bank of India. Apart from these cash balances are the Cash Balance Investment Account and other special Reserves invested outside the general cash balance of Government.

# SUMMARY OF THE TRANSACTIONS OF THE YEAR UNDER REPORT (1940-41).

4. A summary of the detailed transactions during the year under report as compared with the Budget for the year is given in the subjoined statement.

### Revenue.

The revenue receipts of the year show a net improvement of Rs. 18,83 lakhs over the budget estimates. Under the heads where improvement occurred the gross figure of improvement exceeded Rs. 23,00 lakhs. Of this, Rs. 6,86 lakhs is represented by the additional amount available in the Revenue Reserve Fund and Rs. 9,93 lakhs by the increase in the net Revenue from Railways. Other important increases occurred under Taxes on Income other than Corporation Tax, Posts and Telegraphs, Currency and Mint, and Defence Receipts. The shortfall of about Rs. 4,21 lakhs, which was responsible for the reduction of the gross improvement figure to a net Rs. 18,83 lakhs occurred under Customs, Central Excise Duties, Corporation Tax and Salt.

			Increases.
Taxes on Income other Corporation Tax.	than	<b>3,43,35</b>	Increase mainly due to higher realisations under Incometax and Super-tax (2,94,50) largely on account of better trade conditions and Excess Profits Tax (46,67) and the imposition of a Central Surcharge (1,18,18) under the Supplementary Finance Bill introduced in November, 1940. This was offset by increased payment to Provinces on account of their share of the net proceeds of the Tax (1,16,00).
Railways	••	9,93,49	Mainly due to increased traffic receipts (Rs. 9½ erores) and lower working expenses (Rs. 1 erore) partly counterbalanced by larger payments to Railway Companies, etc., as their share of surplus profit and net exrnings (Rs. ½ erore).
Posts and Telegraphs	••	87,01	Mainly due to increase in traffic, particularly Telegraph and Telephone traffic, on account of the War, increase in some of the postal rates and the imposition of surcharges on inland telegrams and trunk telephone rates. Recoveries of establishment and other charges from other Governments, etc., for works done for them were also responsible for part of the increase.
Currency and Mint	••	70,21	Mainly due to larger profit from the circulation of bronze, copper and nickel small coins partly counterbalanced by decrease in the Government's share of surplus profit of the Reserve Bank.
Defence Receipts	••	74,46	Increase mainly due to contribution from the Viceroy's War Purposes Fund and other miscellaneous receipts for which no provision was made in the budget.
Extraordinary Items	·•	<b>6,46,96</b>	The increase is mainly due to the actual amount (7,77,16) available for transfer from the Revenue Reserve Fund being more than anticipated when the budget was framed (91,30). There was also an increase under Receipts connected with the War, 1939 (28,10) mainly from premia under the War Risk (Cooks). Increase Schools (Phone Teach Lawrence Teach Lawrence Teach Lawrence (Phone Teach Lawrence Teach Lawrence (Phone Teach Lawr

(Goods) Insuranc Scheme. There was, however, a fall under the head 'Extraordinary Receipts' (67,00) as the recoveries on account of Burma's share of pensionary liability were adjusted as

deduction from expenditure.

### Decreases.

$\cdot$ Decreases.	
Customs  1,86,32 Composed of 79,34 under Sea Customs—Imports 93,75 under Sea Customs—Exports, 21,46 u Land Customs, and an increase of 72,68 under funds. This was offset by increase of 5,03 under cellaneous and lower payment (75,88) of sha net proceeds of export duties assigned to Provi Noteworthy decreases under import duties occu under sugar, motor spirit, cotton fabrics, ker oil, motor cars, etc., and machinery and under et duties on jute; while noticeable increases occ under import duties on artificial silk yarn thread, tobacco, liquors, iron and steel and a cial silk fabrics.	Re- Mis- re of inces. urred osene export urred and artifi-
Central Excise Duties 65,39 The drop in revenue is mainly due to smaller recumber excise duty on sugar (1,32,03) and incumber refunds (2,92) partly counterbalance increased receipts under kerosene (11,42), a spirits (37,78), matches (9,25), steel ingots and coal and coke (5,82).	rease d by notor
Corporation Tax 1,16,16 The decrease occurred under excess profits (1,91,83) owing to slow progress of assess work. This was offset by higher realisation ordinary collections (27,50), lower refunds (2 and imposition of a Central surcharge under Supplementary Finance Bill of November, (19,93).	ment inder 8,24) the
Salt 52,73 Accounted for by less realisations in Northern mainly under sales of Government salt (1) excise duty on salt manufactured locally (7) despatch receipts (1,69) and greater refunds (7). This was partially offset by increases in Ma (20,89) and Bombay (21,04) arising from accele removal of duty paid salt in anticipation of increase in duty.	1,73), 3,16), 7,81). adras rated
Expenditure.	
The total expenditure within the Revenue account exceeded the budget estimed by about Rs. 25,41 lakhs. Of this, about Rs. 20,84 lakhs occurred under Def Services and about Rs. 3,08 lakhs under Railways. The total Capital Expendents outside the Revenue account also exceeded the budget provision by about Rs. lakhs. The more important variations are explained below:—	ence iture
Increases.	
Railways—Interest and Miscellaneous charges.  3,07,86 Arises mainly from larger appropriation to Ra Reserve Fund (Rs. 3,32, lakhs); partly combalanced by lower interest paid on capital (Figure 1) lakhs). The reduction on the latter item respectively.	inter- ls. 14 julted

67,30

Debt Services

Mainly due to increase in Rupee debt in consequence of the repatriation of Sterling debt and issue of 3 per cent. Defence Bonds (1,70,11), more Ways and Means advances (1,08), larger amounts transferred to Railway Reserve Fund (5,42) and smaller recoveries from Commercial Departments including Railways (15,37) owing to lower rate of interest. This was partly counterbalanced by reduction in interest rate on Treasury Bills (52,08), less interest payments on Sterling debt (15,39) and Savings Bank Deposits (24,20), smaller payment of bonus on Post Office Cash Certificates (21,12) and lower payments to Post Office for Savings Bank and Cash Certificate work (15,10).

mainly from a reduction in the rate of interest and

a decrease in capital outlay.

Civil Administration	••	62,93	Composed of increases and small decreases under a number of heads. The principal increases were under General Administration (9,01) resulting from considerable expansion of the Departments of the Government of India mainly on account of the War, Police (7,64) in virtue of payments to Provinces for War-time additional Police and contribution towards the cost of the Civic Guards, Tribal Areas (13,26) due to expansion of Frontier Corps of Scouts and Militia, enlistment of new platoons of Frontier Constabulary in the North-West Frontier Province and Levy Corps in Baluchistan, and undertaking of urgent road projects in Baluchistan; Public Health (15,36) from cost of replenishing the Central Government's reserve stock of quinine; Aviation (19,61) mainly due to expenditure on the scheme for training pilots and skilled mechanics for the Air Force Reserve.
Currency and Mint	• •	37,24	Due to increased outturn of note forms and purchase of paper and stores for the Currency Note Press including the cost of one supec note forms, and additional expenditure on increased coinage outturn.
Defence Services	••	20,83,60	Includes 56,58 due to increase in prices, pay lavels, etc., 20,04,30 increased expenditure on War measures chargeable to Indian Revenues and 22,81 increase in non-effective charges.
Extraordinary Items	••	81,35	Mainly due to considerable expansion of the Department of Supply and its reorganisation, purchase of Reserve Stock of Wattlebark, and expenditure on schemes and measures, such as War Risk (Goods) Insurance Scheme, the training of skilled Artisans, the opening of parole and detention camps, the setting up of Film Advisory Board and National Service Labour Tribunals and the establishment of the Eastern Group Conference etc., instituted to cope with War situation.
		•	Decreases.
Central Excise Duties		21,92	Mainly due to lower payments to Indian States from the Match Excise pool under the revised procedure for the distribution of the net proceeds of the excise duty on matches. The revised procedure takes effect from the year 1940-41, and since payments are to be made in arrears, the preliminary distribution in respect of 1940-41 did not take place in that year.
Miscellaneous	••	57,00	Mainly due to change of accounting procedure in regard to allocation of the recovery of pensionary charges from the Government of Burma. Such recovery is now taken in reduction of expenditure instead of as a revenue receipt (67,74). There was also lower expenditure on superannuation and retired allowances and miscellaneous pensionary payments in England (8,23). This was partially counterbalanced by larger expenditure (18,16) on Famine Relief works, etc., in Ajmer-Merwara necessitated by the failure of winter crops.

### Capital Expenditure outside the Revenue Account.—

Increase 2,55,65.

The excess occurred under Posts and Telegraphs mainly on account of payment to the Government Telephones Board, Ltd., for purchasing the shares of the Telephone Companies at Calcutta, Bombay and Madras not originally anticipated. Reduced capital expenditure under Railways and under Initial Expenditure on New Capital at Delhi and larger deductions under commutation of pensions constituted together a partial counterbalancing factor.

### REVENUE POSITION OF THE GOVERNMENT.

### GENERAL REMARKS.

5. The budget estimates for 1940-41 were framed at a time when the War had been in progress for barely six months and no one could foresee its future course, or the tremendous events culminating in the collapse of France, which took the world by surprise soon after. The highly conjectural nature of many of the assumptions underlying the budget estimates and the precarious nature of revenue under War conditions were, however, realised from the very beginning. A review of the financial position early in November, 1940 disclosed a prospective deficit of roughly Rs. 13 crores instead of a surplus of about Rs. 5 lakhs anticipated in the budget. On the revenue side, there was a marked decline under Customs receipts resulting from the cessation of trade with many of the European countries, dislocation of shipping, and the restrictions imposed on the import of non-essential goods from outside the sterling area. But it was in the field of defence expenditure that the budget was most seriously disturbed. The increase in such expenditurover the pre-war level was estimated at Rs. 8,34 lakhs. Owing to the gradual extension of the War zone it was decided to expand all the three branches of the Defence Services—Army, Air Force and Navy—considerably and various measures were undertaken to keep India in a state of preparedness against any emergency. The effect of this intensification of War effort was to impose a heavy additional load on the Defence budget. Two measures of fresh taxation, viz., the imposition of a 25 per cent. surcharge for Central purposes on all taxes on income including Super-tax and Corporation Tax, increase in some of the postal rates and surcharges on inland telegram and trunk telephone rates, designed together to bring in an additional revenue of Rs. 6 crores in a full year, were introduced with the object of making good a part of the anticipated deficit. With the help mainly of the proceeds from

the new taxation and larger receipts than anticipated under Taxes on Income other than Corporation Tax and from Railways under the Railway convention, the actual deficit was narrowed down to Rs. 6,53 lakhs.

Compared with the original budget estimates, the revenue receipts recorded a net improvement of Rs. 18,83 lakhs of which Rs. 6,86 lakhs represents the amount of increase in the estimated surplus of 1939-40, transferred to Revenue account in 1940-41 to help out the finances of that year. The other main increases were Rs. 9,93 lakhs under Railways—net revenue, Rs. 3,43 lakhs under Taxes on Income other than Corporation tax (including Rs. 1,18 lakhs being the additional receipts attributable to the imposition of a Central surcharge under the Supplementary Finance Bill passed in November, 1940), Rs. 87 lakhs under Posts and Telegraphs (including the additional revenue due to increases in postal rates and telegraph and telephone surcharges), Rs. 70 lakhs under Currency and Mint mainly from larger circulation of small coins, and Rs. 74 lakhs under Defence Receipts. These increases were partly offset by decreases of Rs. 1,86 lakhs under Customs, Rs. 65 lakhs under Central Excise duties, Rs. 1,16 lakhs under Corporation Tax, and Rs. 53 lakhs under Salt.

On the expenditure side, out of a net increase of Rs. 25,41 lakh, the largest increase overshadowing all others, Rs. 20,84 lakh, occurs under Defence Services, and represents the additional expenditure on various activities connected with the general expansion of the Army in India, the Royal Indian Navy and the Indian Air Force, including the cost of creation of a reserve of trained pilots and airmen and other measures constituting that portion of India's total War effort, which under the settlement with His Majesty's Government, is chargeable to Indian Revenues. The principal heads responsible for the balance of the increase are Railways—Interest and Miscellaneous charges (Rs. 3,08 lakhs) due mainly to larger appropriation to Railway Reserve Fund, Debt Services (Rs. 67 lakhs) due chiefly to payment of accrued interest under the scheme of repatriation of sterling debt and increase in rupee debt, Civil Administration (Rs. 63 lakhs), Currency and Mint (Rs. 37 lakhs) and Extraordinary Items (Rs. 81 lakhs). Part of the excess under Civil Administration and Extraordinary Items is attributable directly or indirectly to the War. The first item includes expenditure on the expansion of Frontier Constabulary in the Tribal areas, and on the scheme of training pilots and skilled mechanics, and also payments and contributions to Provinces on account of extra War-time Police and the cost of Civic Guards. Similarly, the head Extraordinary Items includes expenditure on various organisations which Government had to set up to cope with the new problems created by the War, such as the Department of Supply and its branches, the Film Advisory B and, the National Service Labour Tribunals, and the establishment of the Eastern Group Conference and expenditure on certain schemes undertaken in connection with the War, such as the training of War-Technicians, War Risks (Goods) Insurance Scheme, the opening of Parole and Detention Camps, etc.

### CAPITAL OUTLAY OUTSIDE THE REVENUE ACCOUNT.

### CAPITAL OUTLAY DURING THE YEAR.

6. The following table shows the Capital expenditure outside the Revenue Account during the year 1940-41:—

				Amount of Expenditure.
Nature of expenditure.				•
(1) 67-A.—Construction of State Railways—Commercial	• •	• •	• •	2,34,52
(2) 67-B.—Construction of State Railways—Strategic	• •	• •	• •	3,20
(3) 69.—Capital outlay on Posts and Telegraphs	• •	• •	~ · •	4,78,90
(4) 73.—Capital outlay on Vizagapatam Port	• •	• •	• •	4
(5) 78.—Initial expenditure on New Capital at Delhi	• •	••	••	13,21
(6) 83.—Payments of commuted value of pensions	• •	••	••	-30,24
		Total	•••	6,93,23

The expenditure of Rs. 2,31 lakhs under items (1) and (2) above is the net figure after allowing for credits to capital on account of assets retired or abandoned or lines dismantled by transfer of the original cost from capital to Depreciation Reserve Fund and Railway Reserve Fund.

The progressive Capital expenditure outside the Revenue Account of the Central Government as recorded under the various major heads up to the end of the year 1940-41 has been shown in statement No. 6 of Part A-II and amounts to Rs. 7,89 crores.

## GENERAL STATEMENT OF FINANCIAL RESULTS OF COMMERCIAL DEPARTMENTS.

### (i) Railways.

7. Indian State-owned Railways earned a surplus of Rs. 18.46 crores in the year 1940-41, this being the fifth consecutive year in which there has been a surplus after six years of deficits. The surplus in 1940-41 was the highest attained since the separation of Railway from General Finances in 1924-25. Commencing from that year, railways produced surpluses to the end of 1929-30. In the six subsequent years ending with 1935-36, there were deficits in working which were met partly by utilising the available balances in the Railway Reserve Fund and partly by borrowing from the Depreciation Reserve Fund.

During the first seven years of the separation (1924-25 to 1930-31), a total contribution of Rs. 41.65 crores was paid by Railways to General Revenues. Of this, Rs. 7.82 crores had to be met from the Railway Reserve Fund during the years 1929-30 and 1930-31. No contribution was paid in subsequent years to the end of 1936-37. The further contribution paid during the four years 1937-38 to 1940-41 amounted to Rs. 20.63 crores, thus making a total contribution of Rs. 62.28 crores. The payments made in the three years ending 31st March, 1940, represented the actual surpluses of these years and fell short of the full contribution due to General Revenues in those years. In 1940-41, a sum of Rs. 12.16 crores was paid by Railways

to General Revenues which was in excess of the contribution due for the year by Rs. 7.54 crores. Of this, Rs. 30 lakhs represented the unpaid portion of the contribution for 1939-40; the balance viz., Rs. 7.24 crores constituted a payment towards the arrears of contribution due in previous years. The amount of contribution still due to General Revenues whether on account of postponement during the deficit years or short payment in other years of inadequate surpluses was Rs. 28.17 crores. In addition, a sum of Rs. 31.50 crores was borrowed from the Depreciation Reserve Fund to meet the deficits of the less prosperous years. Of this amount, Rs. 1.21 crores representing the surplus of 1936-37 was repaid to the Fund. Although it was originally decided that the Railway Revenues should not be liable, before the 1st April, 1942, or before the fixation under Section 187 (1) of the Government of India Act, 1935, of the sum therein referred to, whichever is earlier, to repay the balance outstanding on 1st April, 1937, of the loan taken from the Depreciation Reserve Fund and the arrears of contribution to General Revenues to the end of 1938-39, the payment of Rs. 7.24 crores in 1940-41 referred to above, was made in view of the need for assistance to General Revenues in the present abnormal times.

The gross traffic receipts (excluding worked lines) for 1940-41 amounted to Rs. 111.94 crores which exceeded the budget expectations for the year by nearly Rs. 9 crores and the actual receipts of the previous year by about Rs. 14 crores. The increase in the receipts over the estimate occurred both under Coaching and Goods earnings. The enhancement of rates and fares from 1st March, 1940, and the greater movement of traffic due to the extraordinary conditions created by the War contributed mostly to the increase in earnings.

The revenue expenditure of the year (exclusive of worked lines) was Rs. 65.65 crores. This was less than the budget anticipation by about a crore but exceeded the corresponding actuals of the previous year by Rs. 0.8 crore. The decrease over the budget was due mainly to less expenditure in the Engineering, Carriage and Wagon and Electrical departments of Railways owing to postponement or curtailment of repairs on account of war conditions, less rise in prices of materials than anticipated and greater value realised for scrap.

The net revenue, inclusive of net miscellaneous receipts, was Rs. 47·14 crores; and after paying interest charges amounting to Rs. 28·68 crores, there remained a surplus of Rs. 18·46 crores which exceeded the budget anticipation by Rs. 10·17 croses and the corresponding actuals for the previous year by Rs. 14·13 crores. Of this surplus, Rs. 6·30 crores was transferred to the Railway Reserve Fund and the balance amounting to Rs. 12·16 crores paid to General Revenues: as stated in sub-paragraph 2 above, Rs. 4·62 crores represented the contribution due for the year, Rs. 0·30 crore the arrears for 1939-40 and Rs. 7·24 crores, part payment of the arrears of previous years.

The contribution made from Revenue to the Depreciation Reserve Fund was Rs. 12.64 crores and the amount withdrawn for expenditure from the Fund Rs. 7.19 crores. The expenditure was on account of Renewals and Replacements of assets, write-off of the part-cost of certain branch lines dismantled during the year and assets abandoned in previous years. The balance of the Depreciation Reserve Fund at the end of the year 1940-41 stood at Rs. 36.2 crores against Rs. 35.92 crores anticipated in the budget. This is exclusive of Rs. 30.29 crores taken from the Fund for meeting the deficits in the previous years and Rs. 40.38 lakks lent to branch line companies or invested in shares and stock.

The appropriation to the Railway Reserve Fund was Rs. 6·3 crores against the budget anticipation of Rs. 2·98 crores. The result was due to the improvement in earnings during the year. A sum of Rs. 90 lakhs was met from the Fund towards writing off the cost of certain unremunerative lines dismantled during the year, the balance having been met from the Depreciation Reserve Fund. The balance of the Railway Reserve Fund at the end of the year under report stood at Rs. 5·89 crores, inclusive of Rs. 0·43 crore in investments.

Under Capital—New Construction, a budget provision of Rs. 7·25 lakhs was made for the completion of the (1) Sind Right Bank Feeders and (2) Khadro-Nawabshah Railways. The net expenditure was Rs. 0·79 lakh only. The saving was mainly due to economies effected in the execution of the former project and realisation of more credits for released and surplus stores owing to the rise in prices of the materials. Both the lines have been opened for traffic.

The Open Line Works programme provided for an expenditure of Rs. 13.6 crores comprising Rs. 5.76 crores for Track Renewals, Rs. 4.96 crores for Rolling Stock, Rs. 0.70 crore for Bridge Renewals including Hardinge Bridge Protection and Training Works, Rs. 2.6 crores for Other Structural Works and miscellaneous items, Rs. 0.43 crore for the purchase of the Hardwar-Dehra Railway, an increase of Rs. 0.60 crore under Stores and Manufacture Suspense and a reduction of Rs. 1.45 crores chiefly for credits on account of released materials. As in the past, it was anticipated that the Railways would not be able to work up to their programme and so a lump sum cut of Rs. 2.42 crores was made reducing the budget provision to Rs. 11.18 crores. Of this, it was estimated that Rs. 4.18 crores would be charged to Capital and Rs. 7 crores met from Depreciation Reserve Fund. The actual expenditure was Rs. 9.49 crores of which Rs. 2.30 crores were debited to Capital and Rs. 7.19 crores provided by the Depreciation Reserve Fund. Rolling Stock accounted for Rs. 2.39 crores, Track Renewals for Rs. 5.06 crores, Other Structural Works including bridge and miscellaneous works and collieries for Rs. 0.93 crore, the purchase price of the Hardwar-Dehra Railway for Rs. 0.43 erore, that of the Bengal-Dooars Railway for Rs. 1.71 crores, Stores and Manufacture Suspense for Rs. 1.06 crores while the credit for released materials was Rs. 2.09 crores. saving of Rs. 1.88 crores (Rs. 4.18—Rs. 2.30 crores) in Capital outlay was due mainly to postponement, cancellation and modification of works (Rs. 2.5 crores) and the writing off of the cost of certain unremunerative branch lines which were dismantled and of assets abandoned in previous years (about Rs. 2 crores) set off by increases due to the purchase of the Bengal-Dooars Railway (Rs. 1.7 crores), net increase in Stores and Manufacture Suspense (Rs. 0.50 crore) and throw-forward works (Rs. 0.42 crcre).

### (ii) Posts and Telegraphs Department.

8. The Budget Estimates for the year 1940-41 were framed on the supposition that after the first rush of war traffic the revenue earned would be somewhat smaller than in the previous year. The estimates accordingly provided for a Gross Revenue of Rs. 12,35.51 lakhs and Working Expenses of Rs. 11,28.79 lakhs, or a net receipt of Rs. 1,06.72 lakhs; and, after payment to the General Revenues of interest charges on the progressive capital outlay amounting to Rs. 69.63 lakhs, this was expected to produce a net profit of Rs. 37.09 lakhs. During the course of the year the postal rates were increased and surcharges on telegrams and trunk telephone calls were

levied, both as measures of taxation. The increase in postal rates and the surcharges on telegrams and on trunk telephone calls were expected to bring in Rs. 83 lakhs and Rs. 17 lakhs respectively in a full year and took effect from the 1st December of the year under review. The actual revenue amounted to Rs. 13,28·25 lakhs; and after the deduction therefrom of the working expenses (Rs. 11,34·50 lakhs) and of interest charges (Rs. 68·95 lakhs) a profit emerged of Rs. 1,24·80 lakhs. This amount exceeded that of the previous year by Rs. 35·21 lakhs and was the largest since 1925-26 when the accounts of the Department were placed on a commercial basis.

Compared with the Budget Estimates, the actuals recorded an increase of Rs. 92.74 lakhs under revenue, a decrease of Rs. 0.68 lakhs under interest charges, and an increase of Rs. 5.71 lakhs under working expenses. The increase in revenue was mainly due to an unprecedented increase in traffic on account of the war, introduction from the 1st December, 1940 of increased postal rates and surcharges on inland telegram and trunk telephone rates and increase in recoveries of establishment and other charges from other Government Departments, etc. for works done for them. Application of a lower rate of interest, smaller capital outlay and a larger rebate on accumulated profits of the Department account for the decrease in interest charges. The increase in expenditure was due to a variety of causes—the principal ones being larger expenditure under stamps, postcards, stationery, freight on issue of stores and smaller credits for services rendered to other Departments.

The contribution made from revenue during the year to the Posts and Telegraphs Renewals Reserve Fund was Rs. 23.05 lakhs and the amount debited to the Fund for expenditure on renewals and replacements as well as for sold and abandoned assets was Rs. 26.40 lakhs. The balance at credit of the Fund at the close of the year was Rs. 1,94.71 lakhs.

Compared with the actuals of the previous year, the revenue receipts and working expenses increased by Rs. 79.73 lakhs and Rs. 49.24 lakhs respectively, and there was a decrease of Rs. 4.72 lakhs under interest charges. The growth in revenue was mainly due to greater traffic and the introduction of higher rates as a measure of taxation. The increase in expenditure is found chiefly under Pay and Allowances (16,63), contingent expenditure of the Department, including cost of manufacturing stamps, printing and audit charges, maintenance and repairs of works and freight on issue of stores (about 29,50) and smaller credits for services rendered to other Departments, etc. (11,42). The growth of expenditure under these heads was partly counterbalanced by the cessation of expenditure on account of refund of losses on press telegrams (8,50).

As the increases under Postal, Telegraph and Telephone rates were measures of taxation, it was decided that the additional revenue on this account estimated at Rs. 100 lakhs in a full year should be regarded as an outright contribution to the General Revenues and eliminated every year from the accumulated surpluses of the Department for the purpose of calculating rebate of interest. The proportionate share for 1940-41 on account of increase in rates has been fixed at Rs. 33 lakhs, which is to be deducted from the total net profit of Rs. 125 lakhs and the balance of Rs. 92 lakhs is to be added to the surplus of Rs. 82 lakhs brought forward from the previous year's accounts. This brings the accumulated surplus to end of 1940-41 to Rs. 174 lakhs. In conformity with the decision of Government, rebate of interest will, however, be allowed on a maximum of Rs. 100 lakhs of this surplus.

### .(iii) Irrigation.

9. Irrigation works are classified as Productive or Unproductive, according as the net revenue (gross revenue less working expenses) derived from each work on the expiry of ten years from the date of closure of the construction estimate, covers or does not cover the prescribed annual interest charges on the capital invested. The productivity test involves some *pro forma* adjustments which do not appear on the face of the Government Accounts.

### I.—Productive Works.

The Lloyd Barrage and Canals Construction (Khirtar Branch) irrigates lands in the Nasirabad Section of the Baluchistan territory. The Central Government bears the proportionate share of the capital cost and working expenses incurred by the Government of Sind on the Lloyd Barrage and Canals Construction Scheme. The share is determined on certain agreed formulæ. The irrigation revenues pertaining to the Nasirabad Section are retained as central revenues. The project was completed in 1933.

The following table summarises the financial results of the Nasirabad Section:

								1939-40.	1940-41
(1)	Capital outlay to end of	the year	•		• •	• •	• •	1,08,31	1,08,62
	Managara da antada		••	• •		••	• •	3,20	3,64
(3)	Working expenses .		• •	• •	• •	• •	• •	1,87	1,76
(4)	Net revenue excluding in	nterest			• •	• •	• •	1,33	1,88
(5)	Interest on capital			••	• •			4,98	4,78
(6)	Net profit (+) or loss (-	<b>-</b> )	• •	• •	• •	• •	• •	-3,65	2,90
(7)	Percentage of profit or le	oss to ca	pital c	atlay	• •	• •	• •	$3 \cdot 37$	$2 \cdot 67$
			•					(Loss)	(Loss)

The percentage of loss during 1940-41 is less than that in 1939-40 owing chiefly to increase in revenue and decrease in working expenses.

### $II.-Unproductive\ Works.$

The financial results of the Unproductive Works in the Central Areas are summarised in the following table:—

					Ajmer-Merwara.		Baluchistan.		
					1939-40.	1940-41.	1939-40.	1940-41.	
(1)					(2)	(3)	(4)	(5)	
(1) Capital outlay to end of the	e year		• •	• •	28,40	28,40	35,34	35,35

(3) Working expenses					1,18	85	58	85	
(4) Net revenue excluding inte	rest .			• •	67	23	7	25	
(5) Interest on capital			• •		95	95	1,34	1,31	
(6) Net profit (+) or loss(—)		•			1,62	<b>—1,18</b>	-1,27	1,56	
(7) Percentage of profit or loss	to cap.	ital o	utlay		$5 \cdot 70$	4.16	$3 \cdot 59$	$4 \cdot 42$	
	_		·		(Loss)	(Loss)	(Loss)	(Loss)	

Ajmer-Merwara.—These works are all irrigation tanks. The increase in the gross receipts during the year under review as compared with the year 1939-40 is due to favourable agricultural situation.

Baluchistan.—The increase in the working expenses, which has mainly occurred on the Pishin Canal System, is due to the undertaking of a number of works of extensions and improvements and special repairs to restore the system to a tolerable state of repairs.

### REVIEW OF DEBT POSITION.

### · STATEMENT OF BORROWINGS.

10. The following statement shows the debt position of the Central Government at the beginning and close of the year under review:—

	Na	ture of D	ebt.			On 1st April, O 1940.		, Difference + or — ).
		1				2	3	4

								_

It will be seen from the statement above that there has been an increase of Rs. 1,26,55 lakks under Permanent Debt—Rupee Debt,

Rs. 30,20 lakhs under Floating Debt-India,

Rs. 1;56,75 lakhs.

and a reduction of

Rs. 97,99 lakhs under Permanent Debt—Sterling Debt,

Rs. 23,39 lakhs under Unfunded Debt (India Rs. 23,33 lakhs England Rs. 6 lakhs).

Rs. 1,21,38 lakhs.

resulting in a net increase of total debt (Rupee and Sterling) by Rs. 35,37 lakhs.

There has also been a reduction of assets of Rs. 1,81 lakhs under "Loans and Advances by the Central Government" (excess of recoveries over disbursements);

<sup>(</sup>a) Differs from last year's closing balance by 175 since written off to Government.

the total effect has, therefore, been an increase of the aggregate outstanding debt of the Central Government during the year under review by Rs. 37,18 lakhs. Against this increase, however, there was, at the end of the year, an increas over last year of Rs. 33,83 lakhs in the amount of Rupee securities held by Government in its Cash Balance Investment Account. These securities were held by Government either for cancellation or for sale to the public, and the increase in the total liability, therefore, may be taken as reduced by this amount.

Permanent Debt—Rupee Debt.—The loan programme of the Central Government during the year 1940-41 was merged in the Indian Defence Savings Movement launched early in June 1940. This included the issue of (i) the 3 per cent. Six Year Defence Bonds later replaced by the 3 per cent. Defence Bonds, 1946, (ii) Three Year Interest Free Defence Bonds and (iii) Ten Year Defence Savings Certificates. Later, Government issued a second 3 per cent. Defence Loan, from the 1st February 1941 in place of the 3 per cent. Defence Bonds.

The Interest Free Defence Bonds were issued at par with effect from the 10th June, 1940 and are obtainable in any amount above Rs. 50, subscriptions being received in cash only. The bonds are repayable at par on the expiry of three years from the date of issue, but can be encashed at par at any time not earlier than 12 months after the date of issue, on 3 months' notice. In case of private emergency, however, the Reserve Bank of India, on being satisfied of the need, may repay the bonds at par outside these provisions. The total subscriptions to these Bonds during the year amounted to Rs. 2,33,71,021, out of which Rs. 10,113 were repaid during the year leaving a balance of Rs. 2,33,60,908 at the close of the year. The loan is on tap.

The 3 per cent. Six Year Defence Bonds were issued with effect from the 10th June, 1940 at par and are repayable at Rs. 101 for every Rs. 100 (nominal) on the 1st August or 1st February, as the case may be, following the expiry of six years from the date of issue. The issue, however, was closed on the 31st July, 1940 with a total subscription of Rs. 71,29,200. This was replaced by a second series of these Bonds, the 3 per cent. Defence Bonds, 1946, with effect from 1st August, 1940. These Bonds are also repayable at Rs. 101 for every Rs. 100 (nominal) on the 1st August, 1946. The issue price was fixed between the 1st and the 10th August, 1940 at par and thereafter at prices which were increased every week by 9 pies per cent. so as to cover the weekly net interest accruing on the Bonds. Subscriptions were to be either in cash or by tender of 5 per cent. Loan, 1940-43 which was accepted for conversion at par plus the interest from the date of surrender up to 30th September, 1940. The issue was kept open till 24th January, 1941 when it closed with a total subscription of Rs. 44,43,01,900 consisting of Rs. 30,98,35,400 in cash and Rs. 13,44,65,500\* by tender of the 5 per cent. Loan, 1940-43. The balance of the 5 per cent. Loan, 1940-43 was subsequently notified for discharge and a major portion amounting to Rs. 5,85 lakhs was actually repaid in cash during the year.

The sale of the 3 per cent. Defence Bonds, 1946 was discontinued on the 25th January, 1941. In their place, the Government issued, as from 1st February 1941, a second 3 per cent. Defence Loan, 1949-52 on terms slightly more favourable to the

<sup>\*</sup>Note.—The actual amount of the 5 per cent. loan accepted for conversion was Rs. 13,45,23,700, the difference between this amount and the actual amount of the 3 per cent. Defence Bonds, 1946 issued in lieu, represents accrued interest on the issue price of the Defence Bonds and cash refunds. M274AGCR

tax payer. This loan is repayable at par and subscriptions are receivable without limit of amount and until further notice, in cash only. As in the case of the 3 per cent. Defence Bonds, the issue price was fixed at par for the period 1st to 8th February, 1941 and thereafter increased weekly by 9 pies per cent. The total receipts in respect of this loan up to the end of March. 1941 amounted to Rs. 3,92,13,800, out of which a sum of Rs. 3,75,37,700 was allocated as loan proper, while a sum of Rs. 16,21,170 has still to be allocated between 'loan' and 'interest'. This loan is also on tap.

The outstanding balance (amounting to Rs. 2,49,325) of the 5½ per cent. War Bonds, 1920 which were notified for discharge on the 15th August, 1920 was credited to revenue, as under the rules in force the balance of old loans remaining unclaimed for 20 years from the date of discharge is written off the debt account.

The new issues and conversions,—after making allowance for the discharges referred to above, the normal repayment of other loans in course of discharge (Rs. 19 lakhs) and the reduction of permanent debt resulting from the conversion of a portion of 3 per cent. Loan into 3½ per cent. Loan (Rs. 3 lakhs)—had the effect of increasing the burden of permanent rupee debt by Rs. 31,69 lakhs. Additional rupee securities amounting to Rs. 94,86 lakhs were also created in replacement of the sterling debt purchased and cancelled under the scheme of Repatriation of Sterling Debt described in the sub paragraph below under Sterling Debt. The net result has, accordingly, been an addition of Rs. 1,26,55 lakhs to the Permanent Rupee Debt as indicated below:—

Additions.	Lakhs of Rupces.	Reductions.	Likhs of Rupees.

Net addition (A+B — C) Rs. 1,26,55 lakhs.

Perminent Debt—Sterling Debt.—No sterling loan matured for payment during the year, nor was any sterling loan floated. The Government, however, continued their previous programme of repatriation of their sterling debt both terminable and non-terminable under which sterling securities were acquired by open market purcaheses in London and cancelled, rupee securities being created in their place for sale to the public in accordance with the requirements of the market. The tota amount of sterling stocks thus purchased and cancelled during the year amounted to £9,216,000 and the rupee loan created thereagainst was Rs. 12,10,00,000. Form

the 1st April, 1940, a further scheme of repatriation of sterling debt was brought into force which extended the option of transfer of sterling stocks to rupee loans of equal face value worked out at the rate of 1s. 6d. to the rupee and equal maturity to all the holders of India Sterling Loans on payment of a variable licence fee dependent mainly on the difference between the statutory and the market rates of exchange. The total amount of sterling loans thus acquired and cancelled was £2,022,675 in place of which rupee securities of the total face value of Rs. 2,69,69,000 were substituted.

However, with the improvement of the securities market and the progressive removal of the floating stock, it soon became obvious that purchases on such a large scale would no longer be possible except at a cost of pushing prices up beyond a reasonable level. With the Co-operation of the British Government, action was therefore taken to acquire compulsorily the bulk of India's terminable sterling debt by the issue on the 7th February, 1941 of a vesting order requiring all residents in the United Kingdom to surrender their holdings of India's sterling loans at prices fixed on the basis of the market prices as on the 7th February, 1941 plus an allowance for the period necessary for the examination of the surrendered documents before making payments. The first payment under these orders in respect of deliveries made by the 10th March, 1941 was made on the 24th March, 1941. The Central Government also issued a notification to the same effect on the 8th February, 1941 under the Defence of India Rules requiring residents in British India to surrender their holdings of the terminable sterling loans covered by the British Vesting Orders, payment being offered at their option in rupee counterparts or cash, i.e., the rupee equivalent at 1s. 6d. of the price fixed in the British Vesting Orders. Arrangements were made with the Bank of England inviting non-residents outside the United Kingdom and British India to surrender their securities at their option on the basis of the prices fixed in the Vesting Orders. The total amount of sterling securities thus acquired up to 31st March, 1941 amounted to £60,047,539, (c) the amount of rupee counterparts created in their place being Rs. 80,06,33,855.

The following table shows the amount of non-terminable and terminable sterling debt cancelled during the year and up to 31st March, 1941, the cost to Government exclusive of accrued interest and the amount of rupee counterparts created:-

		f debt can- elled.	Cost to Gov	ernment.	Amount of Rupee counter- parts created.			
~ 1	During 1940-41. 2 £	Up to 1940-41.	During 1940-41. 4 Rs.	Up to 1940-41. 5 Rs.	During 1940-41. 6 Rs.	Up to 31st March, 1941. 7 Rs.

<sup>(</sup>a) The sterling payments have been converted into rupees at 1s. 6d. to the rupee.

<sup>(</sup>b) The difference between this amount and the rupee equivalent of the figure in column 3 is due to the creation of  $3\frac{1}{2}$  per cent. rupee paper in lieu of  $2\frac{1}{2}$  per cent. sterling stock cancelled.

(c) A difference of £148,997-10-2 between the amount adjusted by the Secretary of State and the amoun fadjusted in India has been cleared in 1941-42. M274AGCR

Out of the rupee counterparts created under the Vesting Orders, securities of the face value of Rs. 7.37,23,000 were sold to the public, securities valued at Rs. 36,30,47,855 were taken over by the Bank, while securities of the face value of Rs. 36,38,63,000 remained unsold on 31st March, 1941, and are retained by the Bank on behalf of the Central Government for eventual disposal in the manner to be advised by Government.

Besides the discharges mentioned above securities of the India 4½ per cent. stock, 1950-55 of the nominal value of £182,413 were purchased and cancelled during the year in addition to the normal capital payments on account of Railway annuities amounting to £2,175,613 making the total debt discharged £73,495,242\* (Rs. 97,99 lakhs) as shown in the statement at page 22.

Unfunded Debt.—In India, there was a net decrease of Rs. 23,33 lakhs during the year mainly due to the repayment of (1) Post Office Savings Bank deposits (Rs. 18,81 lakhs) and (2) Post Office Cash Certificates (Rs. 10,04 lakhs), counterbalanced in part by net receipts under the newly created Post Office Ten Year Defence Savings Certificates (Rs. 2,30 lakhs) and by increased receipts (Rs. 2,82 lakhs) under State Provident Funds.

The rate of interest on Post Office Savings Bank Deposits remained unchanged at 1½ per cent. per annum. There was also no change in the issue price of the Post Office Cash Certificate, the yield thereon continuing at approximately 2½ per cent. compound interest, free of Income tax. The Government, however, announced in June 1940, as part of their Defence Savings movement already mentioned, the issue of Ten Year Defence Savings Certificates with a higher yield for a complete period of 10 years, viz., approximately 3½ per cent. compound interest, free of Income tax. Government have also instituted a new fund for their employees, called "The Dof noe Savings Provident Fund". The accumulated balance in the Fund is repayable on the subscribe is death, or on his quitting the service, or at his option one year after the end of the war, whichever is call er, the rate of interest allowed being 3% per annum. The net-total receipts of this Provident Fund during the year amounted to Rs. 26 lakhs.

Floating Debt.—The total of the Treasury Bills outstanding at the end of the year stood at Rs. 68,90 lakhs compared with Rs. 54,70 lakhs at the close of the year 1939-40, resulting in an increase of Rs. 14,20 lakhs. The Central Government had also to borrow during the year from the Reserve Bank Rs. 52 crores as "Ways and Means Advances". This compares with Rs. 32.50 crores borrowed in the previous year. Repayment, however, was made to the extent of Rs. 36 crores leaving at the end of the year a balance of Rs. 16 crores which represents the amount of advances taken in March, 1941, mainly for fin noing the repatriation of the terminable sterling debt.

Cash Balance.—The cash balance at the end of the year was Rs. 14,68 lakhs or Rs. 1,94 lakhs less than the opening balance of the year.

<sup>\*</sup> This excludes £148,998 referred to in footnote (c) on page 25.

The statement below shows how the sum of Rs. 37,18 lakhs representing the net addition to the outstanding debt of the Central Government and the sum of Rs. 1,94 lakhs drawn from the Cash Balance have been utilised:—

### SERVICE OF DEBT.

### (i) Interest on Debt and Other Obligations.

11. The total amount paid by the Central Government during the year out of its current revenue on account of interest charges on its debt and on certain other obligations, such as deposits in the Depreciation Reserve and other Reserve Funds of Railways and other commercial departments and undertakings, etc., was Rs. 43,75 lakhs distributed broadly as under:—

	Interest on Ordinary Debt Interest on Unfunded Del Government servants, Sav	ot which c	onsists,	mainly, o		lent Fun	ds of	s of Rupees). 35,47	
(3)	etc. Interest on other obligation	••	••	••	••	••	••	6,56 1,72	
								43,75

	Account).	Decrease	in Cash	Balance	••	• •	••	1,94	

A substantial portion of the Central Government's debt was incurred for the benefit of Railways and other commercial departments and undertakings for financing their capital expenditure and a share of the interest charges is transferred to the debit of these Departments. Similarly, interest paid by the Provincial Governments on the outstanding balances of advances made to them from time to time out of the borrowed money, is taken in reduction of the gross interest charges. The total recovery on both these accounts came to Rs. 33,74 lakhs in 1940-41. The details of these charges will be found in account No. 5 of this report.

Taking into account the recoveries mentioned above and the interest portion of equated payments on account of commuted value of pensions (Rs. 23 lakhs) which is also taken in reduction of gross interest, the net burden which fell on the Central Civil Estimates during the year under review was roughly Rs. 9,78 lakhs. Against this, the Government received interest on certain accounts which amounted to Rs. 79 lakhs in the year under review. This includes receipts on account of interest (i) on Loans and Advances by the Central Government to other than Provincial Governments (Rs. 42 lakhs), and (ii) on Silver Redemption Reserve holdings (Rs. 37 lakhs).

### (ii) Reduction or Avoidance of Debt.

- 12. Under the Scheme of Debt Redemption originally adopted by the Central Government for five years from 1925-26 to 1929-30 which, with certain minor changes, continued to operate till 1932-33, the annual charge against the Central Revenues for the purpose of making provision for reduction or avoidance of debt was to consist of:—
  - (1) a sum of Rs. 4 crores, plus
  - (2) a sum representing one eightieth of any excess in the total of the debt outstanding at the end of the preceding year over the total outstanding on 31st March, 1923.

This annual charge was, according to the scheme, to be applied towards meeting the following expenditure of an obligatory character involving actual redemption of debt:—

- (a) Railway Sinking Funds in operation,
- (b) Depreciation Funds of  $1\frac{1}{2}$  per cent. on the existing 5 per cent. Rupee Loans for which Sinking Funds were established,
- (c) The Capital portion of the liabilities assumed in respect of the British 5 per cent. War Loans, 1929-47, and
- (d) The Capital portion of Railway annuities.

The actual provision in 1924-25, the year before the scheme was applied, was Rs. 3.78 crores and in 1932-33 the amount had risen to Rs. 6.84 crores. In 1933-34, however, the Central Government, with the concurrence of the Secretary of State for India, decided to reduce the provision for that and the two following years to a round sum of Rs. 3 crores only in view of the strengthening of the general financial position.

This reduced provision was to be regarded as covering the obligatory charges mentioned at (a) and (b) above and a part of (d), *i.e.*, the Capital portion of Railway annuities.

The same amount of Rs. 3 crores was provided for in the years 1936-37 to 1940-41, except that in 1937-38 the amount was for special reasons, reduced by Rs. 48 lakhs.

This sum of Rs. 3 crores has been charged to Revenue during 1940-41 and has been shown in the Appropriation Account of Grant No. 11.—Interest on Debt and other obligations and Reduction or Avoidance of Debt against sub-heads O. and P. The details are given below:—

,	Rs.	A.	$\mathbf{p}_{\bullet}$
(i) Railway Sinking Funds in operation, £200,000	26,66,666	10	8
(ii) Depreciation Fund of 1½ per cent. on the 5 per cent. Incometax free loan, 1945-55, for which Sinking Fund has been established	95,04,000	0	0
(iii) Capital portion of Railway annuities £2,175,612-17-6 (converted to Rs. 2,90,08,238-5-4) paid during the year of which a portion only was adjusted against Rs. 3 crores after meeting payments at (i) and (ii) above	1,78,29,333	5	4
	3,00,00,000	0	0

The appropriation to the Depreciation Fund of the 5 per cent. Rupee Loan was made in accordance with the undertaking given by the Central Government at the time of the flotation of the loan.

No payment was made during the year in respect of item (c) on page 28, i.e., annual payment in reduction of India's outstanding liability in respect of the British War Loan.

The amount shown under sub-head O. corresponding to item (ii), represents expenditure in India while that under P. corresponding to items (i) and (iii) as detailed above, represents expenditure booked in the secretary of State's Accounts.

All these payments have been examined in audit and found to be in order.

In addition to the amount mentioned above, the following amounts were also debited to Revenue:—

Rs.					•	
1,12 lak	ebt and				<ol> <li>Discount on Loans other Obligations</li> </ol>	(1)
63 lak					C) Write back of the Commuted Value	<b>(</b> 2)
1,75 lak	• •	Total				

These adjustments virtually amounted to a further appropriation from revenues for reduction or avoidance of debt.

The question of increased provision for reduction or avoidance of debt more in-keeping with the size of the Capital Debt, was raised in the meeting of the Public Accounts Committee in 1936 and again in 1939. The Committee recommended that the Finance Department should examine whether in addition to the annual provision of Rs. 3 crores for reduction or avoidance of debt, there should not be a separate provision for amortisation of the Railway Debt, once the first quinquennium of the Niemeyer Award is over. In view, however, of the prevailing deficit budgets on account of the War, the Central Government have decided to postpone consideration of this question till a more suitable occasion.

### LOANS AND ADVANCES BY THE CENTRAL GOVERNMENT.

13. The transactions under this head and the balances outstanding at the beginning and the end of the year are given in the following table:—

(1)	(2)	(3)	(4)	(5)	(6)
Heads of account.	Balance on 1st April, 1940.	Advances made in 1940-41.	Total.	Recoveries in 1940-41	Balance on 31st March, 1941.
Advances to Provincial Governments	1,21,80,42	1,03,41	1,22,83,83	2,27,28	1,20,56,55
Advances to Crown Representative	7,14	15,58	22,72	1,13	21,50
Loans to Indian States	10,92,27	••	10,92,27	76,77	10,21,50
Loans to Local Funds, etc	9,02,02	35,42	9,37,44	31,02	9,03,42
Loans to Government Servants	7,46	25	7,71	5,66	2,05
Total	1,41,89,31	1,54,66	1,43,43,97	3,35,86	1,40,08,11

In all these cases, except where otherwise stated, the terms and conditions of the loans were fulfilled and the repayments were made regularly.

Advances to Provincial Governments.—This head records the loans to the Provincial Governments including the balances of their liabilities to the Provincial Loans Fund on the 31st March, 1937, which had not been cancelled under the scheme for the decentralisation of balances and the cancellation and consolidation of debt on the introduction of Provincial Autonomy. Advances to the Coorg Administration and the transactions and balances of the advances granted to the Provincial Governments of the United Provinces and Bihar during 1940-41 for the rehabilitation of the sugar industry are also included under this head.

Advances to Crown Representative.—This head records the advances required by the Crown Representative for making loans to Indian States, Notabilities, etc., and the recoveries thereof.

Loans to Indian States.—This head records (i) the balances of and the transactions in connection with the loans granted by the Central Government prior to the 1st April, 1937, and (ii) loans to Indian States subsequent to that date in pursuance of direct arrangement with the States—in most cases a business one.

Out of the total outstanding balance of 10,21,50, a sum of 9,83,66 represents the amount due from the Bahawalpur State.

The outstanding balance of 2,10 against two Indian States in the North-West Frontier Province is free of interest.

Loans to Local Funds, etc.—This head includes advances of the following classes:—

,				* Securi		Balance on 31st March 1941.
Loans to Major Port : Trusts and	d Port	Funds	••	• •	••	. 6,35,02
Loans to Municipalities	••	• •	••	••	••	66,94
Loans to District and other Loc	76,68

Loans to Railway Companies	••	••	• •	••	••	20,10
Advances to Cultivators	••	••	••	••	••	26,10
Advances under Special Laws	••	• •	••	••	••	87,58
Miscellaneous Loans and Advance	• •		• •	43,57		
			1	[otal	•	9,06,42

The head "Loans to Major Port Trusts, etc." includes 95,77 outstanding against the Madras Port Trust, 57,97 against the Cochin Port Fund, 4,27,88 against the Bombay Port Trust and 53,40 against the Chittagong Port Fund. The terms of repayment of an interest-free loan of 3,00 to the Cochin Port Fund have not yet been settled and no repayment has so far been made.

GUARANTEES GIVEN BY THE CENTRAL GOVERNMENT IN RESPECT OF LOANS RAISED BY PROVINCIAL GOVERNMENTS, RAILWAY COMPANIES, LOCAL BODIES, ETC.

14. The Statement below shows Capital or Loans raised by Railway Companies, not treated as Capital contributed by Companies towards outlay on State Railways in Government Accounts, on which guarantees have been given by the Government.

Funds are also raised by the Secretary of State. by the issue of debentures through railway companies working state lines. The interest on these is guaranteed by the Secretary of State, but they are not in the nature of direct obligations incurred by him and are not therefore included in the Public Debt of the Central Government.

#### SUMMARY OF GENERAL FINANCIAL POSITION.

15. The influence of the War is writ large on the finances of the year. On the Revenue side, Customs suffered most. The intensification and extension of the War brought into play factors such as the loss of European markets, control of imports and exports and scarcity of freight, the combined effect of which was to neutralise the gains of the previous year, almost wholly in the case of imports. Simultaneously, the effect of the various measures taken for the safety of the country was to increase the weight on the defence budget by about 45 pcr cent. The year eventually closed with a deficit of Rs. 6,52.8 lakhs, which, but for the revenue surplus of 1939-40 (Rs. 7,77 lakhs), which Government had prudently set aside as a reserve to help out the finances of the next year and the proceeds of the supplementary taxation measures (Rs. 1,71 lakhs), would have risen to Rs. 16,01 lakhs. This deficit was met from borrowed money.

Substantial assistance to the finances of the year was afforded by the two great Commercial Departments, the Indian State Railways and the Posts and Telegraphs. The net contribution of the Indian State Railways to the general revenues, amounting to Rs. 12,16 lakhs, includes Rs. 7,24 lakhs on account of arrears of contribution due from Railway revenues for the period 1931-32 to 1938-39, which were paid, inspite of the Railway moratorium, in view of the need for assistance in the present emergency. Excluding Rs. 33 lakhs, the proportionate share of the estimated annual yield from the increases under Postal, Telegraphs and Telephone rates which accrued wholly to the Centre, the net revenue surplus of the Posts and Telegraphs Department appropriated to general revenues amounted to Rs. 92 lakhs. This surplus is again the largest since 1925-26 when the accounts of the Department were placed on a commercial basis.

In the financial markets, gilt-edged securities, after a setback during the first quarter of the year, recovered in sympathy with London and remained steady thereafter. Monetary conditions remained easy. After the fall of France there was an increased demand for the conversion of notes into coins, mainly for hoarding purposes. The withdrawal from circulation of a very large amount of coins threatened a dislocation of trade and slump in prices which necessitated the issue of a notification on the 25th June, 1940 by the Central Government penalising the acquisition of rupee coin in excess of personal or business requirements. To ease the situation further, Government of India one rupee notes were issued under the Currency Ordinance, 1940 promulgated on 24th July, 1940. These were to be current in British India in the same manner and to the same extent and as fully as silver rupee coins. The reactions of the War developments in May, 1940 were also witnessed in hurried encashments of Post Office Cash Certificates and heavier withdrawals from Savings Bank deposits. Confidence, however, returned in July when Savings Bank withdrawals showed a marked decline and the demand for repayments of Cash Certificates gradually fell to the level of pre-War months.

The previous scheme of repatriation of sterling loan was replaced in February, 1941 by a more comprehensive one in order to accelerate the process with the help of the accumulated sterling resources with the Reserve Bank. The particulars of the transactions connected with the scheme are stated in paragraph 10.

The loan programme of the Central Government in 1940-41 was merged in the Defence Savings movement. The total amount of Defence loans received during the year was Rs. 51,23 lakhs. The total gross debt (including unfunded debt) of the Central Government at the end of the year was Rs. 12,06 crores. As against this, a sum of Rs. 1,40 crores was due from Provincial Governments, Indian States, Local bodies and others on account of loans and advances granted to them. The net debt outstanding was thus Rs. 10,66 crores as against Rs. 10,29 crores at the end of the previous year, i.e., a net increase of Rs. 37 crores. Government of India securities of the face value of Rs. 46,44 lakhs were held at the close of the year in the cash balance investment account for cancellation or sale to the public later, which virtually amounts to a reduction of the permanent debt to that extent (see paragraph 10).

The total net liability of the Government, inclusive of the capital contributed by Railway Companies towards outlay on State Railways, stands at Rs. 10,95 crores. Out of this total liability, a sum of about Rs. 7,87 crores represents capital invested in Railways, Posts and Telegraphs and Irrigation (Productive) Works. This forms nearly 72 per cent. of the total net liability of which the largest share is absorbed in Railways. The statement in acount No. 6 of Part A-II shows the total progressive capital expenditure outside the revenue account. The arrangement made by the Government for the amortisation of the public debt has been stated in paragraph 12.

<sup>(</sup>a) The progressive figure was reduced in 1939-40 by Rs. 4,42,098 representing recovery from the Government of Burma on account of their share of the commuted value of pensions for the three years 1937-38 to 1939-40 which was previously credited to Head LI—Extraordinary Receipts.

#### B.—DEBT, DEPOSITS AND REMITTANCE ACCOUNTS.

#### 1.—Report.

#### Introductory.

- 1. Disbursements under debt, deposits and remittance heads, although involving temporary appropriations of Government funds, are not ordinarily regarded as expenditure within the meaning of Section 67-A (5) of the Government of India Act, as set out in the 9th Schedule of the Government of India Act, 1935, and, except in a few specified cases, are not required to be submitted to the Legislature in the form of demands for grants. It is, however, essential to maintain a complete and progressive record of the debt, deposit, advance, suspense and remittance transactions, as they cannot be ignored when considering the financial position of Government. The management of various receipts and disbursements under these heads constitutes a vital part of the machinery of financial administration. This part of the report contains a record of these transactions and its object is, in the first place, to give a complete enumeration of balances under debt, deposits and remittance heads and, in the second place, to review the current state of the accounts under each head.
- 2. An elaborate account of the origin and nature of certain transactions was given in the Report for the year 1937-38. The explanatory matter in this Report has, in most cases, been restricted to an explanation of the head of account itself.
- 3. Except where stated otherwise, the balances in this part of the Report under each head have been duly verified and found to agree with those shown in the separate registers or other records maintained in the Account Offices for the purpose in accordance with the prescribed rules and have also been accepted as correct by responsible officers concerned where necessary; the terms and conditions of loans, etc., have been fulfilled and repayments made regularly; the debits and credits during the year to the various reserve funds and deposit accounts of grants, etc., were for amounts authorised by the relevant Acts or rules of the funds or accounts and there were no diversions for purposes other than those for which the funds were constituted or the grants were made.

4. The following is the general statement of balances in India and England, of the Central Government on the 31st March, 1941.

#### I.—Balances in India.

5. It may be mentioned here that the balances of accounts shown in these statements are not, and cannot be, regarded as a complete record of the state of affairs of the Central Government, as it is not possible to take into account all the various assets of Government such as land, buildings, communications, etc., for which no statistics are available and the value of which it is difficult to estimate. These statements, therefore, show the balances of those accounts only for which separate running accounts are kept within the Government books.

The above balances are reviewed in detail in the following paragraphs.

### SECTIONS A TO M, PART OF SECTION P AND SECTIONS S (II) AND T—GOVERNMENT ACCOUNT.

India	•• ••	••	Dr. Rs.	6,99,20,41,163
England	Secretary of State	• •	Dr. £	244,347,461
England	High Commissioner	••	Cr. £	154,095

6. This is the general closing head in the ledger. Under the system of book keeping followed in the Indian Government Accounts all balances which are not carried forward from year to year are closed to this head. It is also used as an adjusting head for the purpose of counterbalancing entries which have been included elsewhere in the accounts. The balance under this head, therefore, represents the cumulative results of revenue, capital and other transactions in respect of which no separate progressive balanced accounts are kept. A general outline of the balance in India on the 31st March, 1941 is given in the following table:—

Dr.	;	(India.)	Cr.
	$\mathbf{R}_{\mathbf{S}}.$		Rs.

9. The statement given below is intended to afford a general view of the combined balances in India and England, of the Central Government in units of rupee currency, outstanding sterling debts and other balances in England being combined with the corresponding balances in India at the rate of £1=Rs. 13\frac{1}{3} and the resultant total expressed in rupees. This method of presentation does not, however, purport to be the correct method of assessing the sterling balances at their real rupee value, but in the absence of any more accurate basis for determining the exact rupee equivalent of these balances, the sterling figures have been converted into rupees at the above rate.

SECTION N.—PUBLIC DEST	··· \[ ENGLAND	Or.	£	255,833,102

11. The term "Public Debt" used in this Report is confined to regular loans raised from the public in India and in England, including certain Railway liabilities and the outstanding portion of India's financial contribution to the Great War, 1914-18. It does not cover other interest-bearing obligations, such as Post Office Savings Bank Deposits and Cash Certificates, and Provident, Depreciation, Reserve and other Funds, which are dealt with in Sections O and P of this Report. A comparative statement, showing the aggregate gross capital habilities of the Central Government on the 31st March, 1941 and the capital and other disbursements which are treated as set-off against these liabilities, is to be found in Account No. 2 of Part B of this Report.

The liabilities reviewed in this Section are divided into two classes, namely, "Permanent Debt" and "Floating Debt". The term "Permanent Debt" covers such of the loans borrowed by Government in the open market as are intended to have, at the time when they are raised, a currency of more than twelve months. The term "Floating Debt" is applied to borrowings of a purely temporary nature, such as treasury bills and ways and means advances from the Reserve Bank of India, which are to be repaid within twelve months. The balances under each of these classes, which represent the nominal value of outstanding debt on the 31st March, 1941, are reviewed in the following paragraphs.

The outstanding balance of Public Debt on the 31st March, 1941 amounted in the aggregate to a sum of Rs. 10,03,37,12,197 as shown below, the sterling debt being converted into rupees at the rate of 1s. 6d. to the rupee. This method of presentation probably does not show the sterling liabilities at their true rupee value but in the absence of a more suitable basis for determining the exact rupee equivalents of the sterling loans raised in England, based on actual conditions, the sterling figures have been combined with the corresponding rupee figures in India at the conventional rate of 1s. 6d. to the rupee and the resultant total expressed in rupees.

#### C.-Interest Free Loans.

Rs.

Three year Interest-Free Defence Bonds

2,33,60,908

The total figure under "B.—Loans not bearing interest" represents the unclaimed balance of old loans which have been notified for discharge and have ceased to bear interest from the due date of discharge.

- 14. The figures in paragraph 13 correspond with those given in Account No. 93 of the Combined Finance and Revenue Accounts for 1940-41 and Account No. 3 of Part B of this report.
- 15. The Indore State Railway Loan of Rupees seventy lakhs and the Scindia State Railway Loan of Rupees one crore and fifty lakhs are not borne on the registers of the Public Debt Office but were taken under special conditions from the Maharajas Holkar and Scindia.
- 16. The other loans are borne on the registers of the Public Debt Office and the verification of their balances consists in a reconciliation between the loan balances

which are outstanding on the books of the Accountant General, Central Revenues, and the corresponding balances in the books of the Public Debt Office, Calcutta, as representing the outstanding loans held against Government. A comparison of the figures of outstanding loans on the books of the Accountant General, Central Revenues, on the 31st March, 1941 with the corresponding liabilities on the books of the Public Debt Office revealed differences under twenty loan heads noted below:—

									Ledger balance more+less

The ledger balances on the books of the Accountant General, Central Revenues, based as they are on the actual transactions passing through the Government accounts of the year, may be taken as the true liability of the Central Government on the 31st March, 1941.

The differences mentioned above except in the case of items 16-20 relate to loans which are in course of discharge. The balances on the books of the Public Debt Office are not reduced until the securities are actually cancelled by that office, while the necessary debits are adjusted through the accounts of the Accountant General, Central Revenues, on the basis of information furnished by the Accountants General. The differences in the case of items 1—15 were mostly due to securities discharged and accounted for as such in the accounts of the Accountant General, Central Revenues, but not cancelled by the Public Debt Office and vice versa, and in the case of item 13, to a certain extent to outstanding allotment letters not having been converted into scrip. In the case of item 8, it has been found impracticable to locate the difference prior to 1931 and therefore it has been allowed to stand, but transactions during the year relating to this loan which operate to affect the balance are watched in the Account Office with the object of reducing

the difference to a minimum. The outstanding amount of the loan will, after the usual period of 20 years from the date of discharge of the loan, be written off to revenues. In the case of item 16, the difference between the ledger balance and the balance on the books of the Public Debt Office is due to an erroneous adjustment in the books of the Bank, which has been set right in April, 1941. The difference in the case of the  $3\frac{1}{2}$  per cent. loan, 1854-55, (item 17) is due to payments of the commutation value of interest on certain Amanoti Stock Certificates, in respect of which the loan balance has to be reduced by the Public Debt Office. The Three year Interest-Free Defence Bonds and the Three per cent. Defence Loan, 1949-52 year Interest-Free Defence in the case of the latter (item 19) is due to the difficulty in the allocation of loan receipts under 'loan' and 'accrued interest' till the actual issue of scrip in all cases. The small differences in the case of items 18 and 20 have been adjusted in 1941-42.

# II.—Floating Debt .. .. Cr. Rs. 84,90,25,000

17. The balance under Floating Debt is made up of Treasury Bills outstanding on 31st March, 1941 on the books of local Head Offices and the Branch Offices of the Reserve Bank of India and the balance of temporary loans from the Reserve Bank of India on that date. The details, according to accounting circles, are as follows:—

19. These balances are borne on the books of the Secretary of State and agree with the figures shown in Account No. 93 of the Combined Finance and Revenue Accounts for 1940-41 and Account No. 3 of Part B of this Report.

The amount shown against "Liability for British Government 5 per cent. War Loan (1929-47) taken over by India" is the undischarged balance of the liability assumed by India as a contribution towards the cost of the Great War, 1914-18. Payment of interest on this liability has been suspended from 1st July, 1931.

The amounts shown under Railway Annuities represent the unexpired portion of the capital liability involved in the purchase of Railways under redemption by annuities, which has been transferred to general revenues on the separation of the railway finances from the general finances of the Central Government.

20. Funds are also raised by the Secretary of State by the issue of debentures through Railway Companies working State lines. The interest on these is guaranteed by the Secretary of State, but they are not in the nature of direct obligations and are not therefore included in the Public Debt of the Central Government.

23. Full particulars of these loans are given below:—

Madras Perpetual Loans .. .. .. .. Rs. 91,000

These are all deposits made by private persons originally with the Government of Madras as perpetual loans. The deposit is in each case an endowment for religious purposes connected with Christian churches.

Endowments by the late King of Oudh .. .. .. Rs. 1,37,14,886

These are endowments made by the late King of Oudh for the payment of pensions and certain stipends called Wasika Pensions. The balances of the first and the third loans have been reduced by Rs. 2,662 and Rs. 1,908 respectively during the year under report owing to adjustments on account of the values of commuted and lapsed pensions. There has been no change in the balance of the sixth loan during 1940-41.

Indian Civil Service Family Pension Fund	••	••	······································	•• ••		182,216 1,660,353

<sup>(</sup>a) The minus credit balance of Rs. 52 has been adjusted in the accounts for 1941-42.

26. India—These represent, in the main, the balances of certain funds intended for the benefit of Government servants, but not under the control of Government, which are deposited with Government on favourable terms as to interest.

In respect of all these funds the Treasury is merely the depository, the funds having in each case their separate offices and organisations for keeping the details of the accounts. The verification of the balances therefore consists in merely agreeing the balances on the Government books with those claimed by the trustees or other responsible officers of the funds. In the case of the Bengal Uncovenanted Service Family Pension Fund, the agreement has not yet been effected.

27. England—The Indian Military Widows' and Orphans' Fund was designed to secure suitable provision for the widows and orphans of officers of the Indian Army not being subscribers under the Indian Military Service Family Pension Regulations. The balance of the fund, which is essentially sterling in character, is held in England.

All moneys contributed under the Indian Military Service Family Pension Regulations and the Indian Civil Service Family Pension Rules were up to 31st March, 1936 credited as revenues of India and the pensions and other benefits paid were debited as a charge upon those revenues. Since 1st April, 1936 these transactions have been brought under Section O.—Unfunded Debt and the balances have been recognised as sterling liabilities of Government.

With effect from 1st April, 1937 all these funds have been divided into two sections, namely, the transferred section and the untransferred section, to represent respectively the interest transferred to the Commissioners appointed under the Government of India (Family Pension Funds) Order, 1936, and the interest untransferred by reason of objection made under Section 273 (3) of the Government of India Act, 1935. The balances existing at the end of March, 1937, in respect of the section of the subscribers and beneficiaries who have elected for transfer, have been paid over to the appropriate Commissioners under the provisions of the Order in Council during 1937-38 and 1938-39. The balance outstanding on 31st March, 1941 in respect of "Transferred Funds" is shown under "Suspense Accounts" in "Section P.—Deposits and Advances". The balances shown here represent those of the "Untransferred" section of each fund.

These funds are under the control of Government and are audited like other Government accounts.

Savings Bank Deposits ... Cr. Rs. 59,51,11,042

28. These relate to savings banks established at Post Offices throughout the country to encourage thrift and the banking habit. Deposits are received into them subject to certain limitations and bear interest at 1½ per cent. The interest credited to the depositors' accounts during the year amounted to Rs. 92,89,000. The balance mentioned herein excludes the balances under "Dead Savings Bank Accounts" which are shown separately under "Deposits". The ledger balance was found to differ from the total of the balances of live accounts held at the credit of the depositors as worked out from the books of the Audit Offices by Rs. 29,748. Excepting for a sum of Rs. 8,922 which is under verification, all the other differences have been adjusted in the accounts for 1941-42.

•	Post Office Certificates		•		• •	Cr.	Ŕs.	49,28,44,584
	29. This is composed of the	foll	owing :-					Rs.
	(1) Post Office Cash Certificates			• •	• •		••	46,98,87,584
	(2) Post Office Ten year Defence S	aving	Cortificat	85				2,29,57,000

(1) The balance under Post Office Cash Certificates represents the issue price of Cash Certificates sold to the public remaining undischarged at the end of the year under review and does not include the accrued liability in respect of bonus which is of the nature of deferred interest and is payable under the system described below.

These certificates are repayable on demand at any time, but are ordinarily expected to remain in deposit for five years. On repayment, after the first year of deposit, a bonus is payable in addition to the principal. For a certificate remaining in deposit for the full five years, the bonus payable represents, at the rates of issue prevailing during the period covered by this report, approximately  $2\frac{1}{2}$  per cent. compound interest.

With a view to afford additional facility to the holders, cash certificates maturing on or after the 6th June, 1940 are allowed, at the option of the holders, to be held for a further period of ten years, at revised rates of interest during the extended period. A sum of Rs. 10,33,800 representing the issue price of unclaimed Cash Certificates of 1926-27 and 1931-32 issues was transferred to Central Revenues in the accounts for 1940-41.

(2) With effect from 6th June, 1949, a new form of Postal Certificate known as "Post Office Ten year Defence Savings Certificate" has been issued. These certificates like the Five year cash certificates are payable on demand with a bonus, if paid on or after the expiry of two years from the date of issue but are ordinarily expected to remain in deposit for ten years. The bonus payable after the full term of ten years represents, at the rates now prescribed, approximately 3½ per cent. compound interest. The balance represents the issue price of certificates remaining undischarged at the close of 1940-41.

#### State Provident Funds

30. These are funds established for the benefit of Government servants, contrithe sums deposited in them and, in some cases where the funds in effect represent revenues. The Defence Savings Provident Funds, ordinary and Railway, are accumulated deposits in the other funds are finally paid to the depositors on the circumstances. The balancos of individual accounts were duly communicated to funds are as shown in the

#### State Railway Provident Institution ... Cr. Rs. 38,47,53,181

31. The balance in the ledgers of the Institution was reconciled with the general books of the Railways concerned and with the broadsheet maintained by the Accountant General, Central Revenues. Small differences which were noticed have been settled in the accounts for 1941-42. The balances of individual subscribers' accounts were communicated to the depositors concerned except those on the North Western Railway.

#### Companies' Railways Provident Fund .. .. Cr. Rs. 27,28,58,912

32. The balance at credit of the Fund was reconciled with the accounts of individual depositors. Small differences which were noticed have been adjusted in the accounts for 1941-42.

#### General Provident Fund .. Cr. Rs. 9,47,16,443

33. The ledger balances of this fund on the books of the Civil and Departmental accounting officers are proved with the sum total of the balances of the personal accounts of the subscribers to the Fund. In doing so differences were found in certain cases, which have since been settled except for Rs. 200 in Baluchistan, Rs. 3,072 under Central Revenues and Rs. 3 in Madras. The balances of individual subscribers were communicated to the depositors concerned except those on the North Western Railway.

#### Indian Civil Service Provident Fund ... Cr. Rs. 23,02,209

34. The balances under this head represent deductions made from the salaries of members of the Indian Civil Service which are funded for the benefit of the officers concerned. The ledger balances agree with the broadsheets maintained by Account Offices except Rs. 280 under Central Revenues and Rs. 66 under Central Provinces. The differences have been adjusted in the accounts for 1941-42. The balance of Rs. 300 shown under Bombay pertains to other Provinces and has been adjusted in the accounts for 1941-42.

#### 

35. This fund was established on the 1st January, 1931. It is open only to non-European members of the Indian Civil Service. The balances shown under Madras and Bombay have been adjusted in 1941-42. The balance under Bombay pertains to other Provinces.

### Defence Savings Provident Fund.. .. Cr. Rs. 23,29,435

36. This fund was started during the year to enable Government servants to take part in the Defence Savings movment. Subscriptions are voluntary and will not continue beyond twelve months from the date on which the present war is declared to have terminated. No advances are permitted. The amount standing at the credit of a subscriber is payable on his quitting service or on the expiry of twelve months from the date on which the present war is declared to have terminated, whichever is earlier, provided that in the latter-case the subscriber gives due intimation claiming payment to the Account Officer or the Head of the Office as laid down in the rules.

Differences between ledger and broadsheet balances were noticed in certain cases, which have been adjusted in the accounts for 1941-42, except Rs. 65 under Central Revenues, Rs. 644 in Madras, Rs. 286 in Punjab, Rs. 88 in Assam, Rs. 18 in Orissa and Rs. 10 under Defence Services. Discrepancies between ledger and broadsheet also exist in Bengal and the United Provinces. The balances were not communicated to individual depositors in the United Provinces and on the North Western Railway.

#### Defence Savings Provident Fund Railway

Cr. Rs. 2.35.057

37. This fund was also started on terms similar to those of the Defence Savings Provident Fund during the year under review and is open to all Railway servants in the service of the Crown in India. The balances of individual subscribers were communicated to them except those on the North Western Railway.

#### Defence Services Officers' Provident Fund

Cr. Rs. 44,69,708

38. It is open to British and Indian Officers holding substantive King's Commissions in the Indian Army, including the Indian Medical Service, and in the Royal Indian Navy.

#### Military Engineering Services Provident Fund

Cr. Rs. 53,970

39. This fund is intended for non-pensionable Government servants of the Military Engineering Service. The balance includes a sum of Rs. 242 which is under readjustment by the Controller of Military Accounts, Eastern Command, Meerut.

#### Indian Ordnance Department Provident Fund

Cr. Rs. 73.04,737

· 40. This fund is intended for non-pensionable Government servants of the Indian Ordnance Department.

#### Contributory Provident Funds

Cr. Rs. 54,03,435

41. These funds were started for the benefit of certain non-pensionable Government servants under the control of the Central Government. There was a difference of Rs. 72 between broadsheet and ledger balances under Central Revenues, out of which a difference of Rs. 25 has since been settled.

#### Other Miscellaneous Provident Funds ...

Cr. Rs. 58,45,573

42. This balance includes (1) the balances of special Provident Fund for the non-pensionable employees of the late Indian Stores Department, (2) the balances of the Vizagapatam Port Contributory Provident Fund which is open to employees of the Vizagapatam Port only and (3) the balances of the Okara Military Farm Provident Fund and the Indian Ordnance Factories Workmen's Provident Fund.

44. The balance of the Bombay Family Pension Fund of Government Servants (Life Assurance Branch) is constituted of subscriptions of such members of that fund who become widowers.

The balance under the *Hindu Family Annuity Fund* differs from the amounts claimed by the Administrators of the Fund by Rs. 203.

- 45. The Postal Insurance and Life Annuity Fund is a Life Insurance Fund managed by Government for the benefit of its employees, in which insurance is permitted up to a maximum of Rs. 20,000 for each life insured. The balance includes interest for the year at  $3\frac{1}{2}$  per cent. on balances at credit of the Fund in respect of policies issued up to the 31st March, 1940 and at 3 per cent. in respect of policies issued from the 1st April, 1940 onwards. The number of subscribers on the 31st March, 1941, was 99,236 against 1,00,704 on the same date in 1940.
- 46. The Staff Benefit Fund, Railways provides certain amenities and affords relief from distress to non-gazetted employees of Railways, the cost of which was previously met from the Railway Fine Funds. The income of the fund is derived from fines levied on the employees, supplemented by a contribution from Railway revenues.
- 47. Indian Railway Conference Association Employees' Provident Fund.—The balance agrees with the balance as per personal ledgers of the individual subscribers.
- 48. The balance under the Cemetery Endowment Fund represents the amount of fees received up to 31st March, 1941, for the endowment of monuments in Government cemeteries.

51. The balance at credit of the Railway Reserve Fund in the general books on 31st March, 1941 was Rs. 5,89,06,557.

With the separation of railway finances from general finances, general revenues receive an annual contribution from Railways, which is calculated in the manner indicated in Account No. 22-A of the Combined Finance and Revenue Accounts, and any surplus remaining after making this payment is transferred to the Reserve Fund. During 1940-41, a sum of Rs. 6,31,32,958 was credited to the Fund. This amount includes Rs. 6,30,06,506 being contribution from Revenue and Rs. 1,26,452 representing profit realised on the cancellation of investment made in the Hardwar-Dehra Railway shares. The debit to the Fund during the year amounted to Rs. 90,12,515 which is the difference between the original cost of certain lines dismantled and the amount debited to the Depreciation Reserve Fund on that account.

Amounts may be withdrawn from the Reserve to secure the payment of the annual contribution to general revenues; to provide, if necessary, for arrears of depreciation and for writing down and writing off capital; and to strengthen the financial position of Railways in order that the services rendered to the public may be improved and rates and fares may be reduced. The Reserve may also be used for temporary borrowings for the purpose of meeting expenditure for which there is no provision or insufficient provision in the revenue budget estimate, subject to the obligation to make repayment of such borrowings out of the revenue budgets of subsequent years.

The balance of the fund has since 1924-25 been used partly in writing down the value of stores, payment of contribution to general revenues and to meet deficits in the working of the railways.

The balance of Rs. 43,00,335 under Reserve Fund Investment Account—Railways represents the amount invested from the Reserve Fund in shares of certain Branch Line Companies. The face value of these shares was Rs. 45,78,700.

The Depreciation Reserve Fund—Railways provides generally for the cost of renewals of all assets. The amount set aside annually to cover depreciation is one-sixtieth of the total capital at charge at the end of the previous year. The Fund includes provision in respect of company-managed railways also, though the procedure for accountal followed in their case is somewhat different.

During the period 1931-32 to 1935-36 the balance of the Fund was utilised temporarily to meet losses in working the Railways. A portion of the amount so utilised was, however, repaid to the Fund from the surplus for the year 1936-37. The net amount of these losses at the end of 1937-38 was Rs. 30,29,32,559. The repayment of this amount has been postponed till 1st April, 1942 or the fixation under Section 187 (1) of the Government of India Act, 1935, of the sum therein referred to, whichever is earlier.

A sum of Rs. 32,26,416 representing the cost of abandoned assets which was held in the books of the Railway Board under capital was debited to this Fund in 1937-38.

Out of the credit balance of Rs. 36,60,71,936 at the end of 1940-41 under this head a sum of Rs. 33,78,12,177 relates to Commercial lines and Rs. 2,82,59,759 to Strategic lines.

Eleven cases of misclassification noticed during the year resulted in a net short debit of Rs. 89,916 to the Fund.

Loans to Branch Lines.—A sum of Rs. 9,17,164 (Rs. 9,00,000 in 1933-34, Rs. 8,531 in 1939-40 and Rs. 8,633 in 1940-41) has been advanced from the Depreciation Reserve Fund to certain Branch Line Companies to meet capital expenditure.

Depreciation Reserve Fund Investments Account.—A sum of Rs. 31,20,910 has been invested from the Depreciation Reserve Fund in shares of Branch Line Companies.

### Renewals Reserve Fund—Posts and Telegraphs ... Cr. Rs. 1,94,70,571

52. This Reserve Fund is designed to meet the cost of all replacements and abandoned assets. The annual contribution from Revenue to the Reserve Fund has been fixed at Rs. 23,05,000 per annum from the 1st April, 1939. The amount of contribution relating to each branch of the Department for the year 1940-41 has been arrived at by apportionment of the total amount mentioned above, in the following proportions fixed by the Finance Department—

Post Office	••	• •	• •	• •	• •	• •	• •	10 per cent.
Telegraphs	• •	• •	• •	• •	• •	••	• •	60 per cent.
Telephones	٠.	• •	••	••	••	••	••	25 per cent.
Radios			• •	••	• •	• •	**	5 per cent.

The position of the Reserve in respect of each branch of the Department at the close of 1940-41 is shown below:—

									Rs.
Post Office	••	• •	• •	•• `	••	• •	• •	• •	6,43,408
Telegraphs	• •	• •	• •	• •	• •	••	••	••	1,50,93,176
Radio Telegraphs	• •	• •	• •	• •	• •	• •	• •		2,06,893

#### 

Cr. Rs. 26,84,050

53. The Depreciation Reserve Fund of the Northern India Salt Revenue Department which was instituted in 1924-25 was replaced by a "Renewals Reserve Fund" from the 1st April, 1938 with a fixed annual contribution of Rs. 1,30,000.

Depreciation	Reserve	Fund-	—Lighthou	ses and	
Lightship	ps	• •	• •	• •	C

Cr. Rs. 13,90,886

General Reserve Fund—Lighthouses and Lightships .....

Cr. Rs. 35,90,477

54. The Depreciation Reserve is intended to provide for renewals and replacements of wasting assets.

The General Reserve is built up by transferring from the Income and Expenditure account of the Department the surplus of the receipts over the expenditure of each year. It is charged with the amounts of deficiencies, if any, in the Income and Expenditure account. Capital expenditure may also be met out of this Reserve.

These Reserves have been deposited with Government. The interest earned thereon is treated as income of the department.

#### PART II.—DEPOSITS NOT BEARING INTEREST.

55. This part consists of three main divisions, namely:-

		Ind	ia.	Engla	nd.
		Dr.	Cr.	Dr.	Cr.
		$\mathbf{Rs.}$	Rs.	£	£
(1)		(2)	(3)	(4)	(5)
(A) Sinking Funds	• •	• •	13,81,66,092	••	
(B) Reserve Funds	• •	14,938	8,38,67,280	7,499,969	7,500,000
(C) Other Deposit Accounts	• •	1,033	9,12,71,853	• •	• •
Total	••	15,971	31,33,05,225	7,499,969	7,500,000

#### (A) SINKING FUNDS.

#### Sinking Fund for Central Loans

Cr. Rs. 13,81,66,092

56. The credit balance under this head represents the provision made against depreciation of the market price of the 5 per cent. Loan 1945—55. The money accumulating in this fund is available for purchasing the securities of this loan in the open market when their market value falls below the issue price and thus secures the two objects of stabilising the market and reducing Government liabilities at a comparatively low cost to Government. The total balance in the fund including interest on previous investments amounted to Rs. 13,81,66,092 the whole of which remained uninvested at the end of 1940-41.

The regular sinking funds now in operation in England for amortisation of Sterling Debt are the Railway Sinking Funds created at different dates for the redemption of the India Stock (and a small portion of the Rupee Debt) issued in part payment of the liabilities assumed by Government on the purchase of the capital of some of the old guaranteed Railway Companies. The total amount of debt undergoing redemption by these Sinking Funds is £13,175,511, of which £11,022,956 have been redeemed to end of 1940-41. As the annual payments in respect of these Sinking Funds are utilised in the purchase and cancellation of debt, the balances of the Funds do not constitute a part of the balanced account of the Secretary of State.

#### (B) RESERVE FUNDS.

Silver Redemption Reserve		• •	Cr. £	7,500,000
Silver Redemption Reserve Inv	estment Acc	ount	Dr. £	7,499,969

58. The primary object of the Silver Redemption Reserve is to provide sterling assets for transfer to the Issue Department of the Reserve Bank of India against delivery by the Bank of rupee coin, in accordance with the proviso to Section 36 (1) of the Reserve Bank of India Act. Except for some small amount of cash, the entire balance of the Reserve is invested in sterling securities. The Reserve including the invested portion is in the custody of the Secretary of State.

The intention is to maintain this Reserve at a market value of Rs. 10 crores. It may be increased by receipts from any of the following sources, namely:—

- (a) proceeds of sales of silver from the Surplus Silver Stock,
- (b) payments from the Bank under Sections 36 (2) and 36 (3) of the Act,
- (c) profits from any casual sales of gold by the Bank accruing to Government as part of its share of the profits of the Bank, and
- (d) capital appreciation of the securities.

The Reserve is liable to diminution from two causes, namely :-

- (i) transfer of assets to the Bank under the proviso to Section 36 (1) of the Act to meet sterling liabilities in respect of return of coin, and
- (ii) capital depreciation of securities.

Receipts from the first three sources are regarded as available for replenishment of the Reserve only to the extent of any deficiency caused by previous payments to the Bank, any excess in the corpus of the Reserve over Rs. 10 crores being credited to the head "Purchases and Sales of Silver". As a matter of accounting machinery and in order to avoid the record of silver sales under two different heads, all such sales are recorded in the first place under the head "Purchases and Sales of Silver", any amount appropriated to the Silver Redemption Reserve being credited to the Reserve. Capital depreciation constitutes the first charge on the interest realised from the Securities held in the Reserve, and only the net amount

of interest in any year, after making good any depreciation suffered during that year, is creditable to Revenue. If in any year there is a net appreciation in investments belonging to the Reserve, the amount of such appreciation together with all the interest receipts of that year is creditable to Revenue.

The balance on 31st March, 1941 was made up as follows:-

			Nominal amount.	Market value.
Investments:			£	£
British Government 5% Conversion Loan, 19	14-64	• •	1,000,000

	Total	••	7,450,900	7,499,969
Add-Uninvested (included in general cash ba	lance)	••		31
	Total			£ 7,500,000
The securities are lodged at the	Bank of Engl	and.		• •
Defence Reserve Fund			Cr. Rs.	1,05,00,005
Equalisation Fund—Defence Servi	ces		Cr. Rș.	1,38,06,432

59. All operations on these Funds and the Renewals Reserve Fund, Defence Services (see paragraph 68) have been suspended from 1st April, 1939 and for the duration of the War in consequence of the financial arrangement between His Majesty's Government and the Government of India in respect of Defence Services.

### Telephone Development Fund ... Cr. Rs. 1,86,61,046

60. A Telephone Development Fund has been created from the 1st April, 1938 to finance telephone projects including telegraph line works required primarily for telephone development. Ordinarily only such expenditure of a capital nature would be debitable to this fund as is required for works which are of a remunerative character. In exceptional cases, it might be necessary to finance out of this Fund works of a protective nature also required for the above purposes. A sum of Rs. 2½ crores, being the estimated cost of telephone works for a period of 5 years beginning with the year 1938-39 has been credited to this head by debit to "69—Capital Outlay of the Indian Posts and Telegraphs—Appropriation to the Telephone Development Fund". Expenditure on telephone projects during a year is initially booked under the head "69-A" and at the end of the year is transferred to the Fund. The expenditure so transferred is, however, included in the total interest bearing capital outlay. The Posts and Telegraphs Department does not, however, pay interest on the amount appropriated to the Fund nor does it receive interest on the unutilised balances of the Fund.

A further sum of Rs.  $4\frac{3}{4}$  crores was appropriated to this Fund in 1940-41 by debit to the Posts and Telegraphs Capital account for payment to the Government Telephone Board formed for the purpose of acquiring the shares of the Telephone Companies at Calcutta, Bombay and Madras. The intention is that the assets acquired by the Board will be amalgamated with the Posts and Telegraphs assets in 1943, the Board being an *interim* device to secure earlier possession. The Posts and Telegraphs Department will have to pay interest on the entire expenditure met from the M274AGCR

above appropriation, but this charge will be recovered from the Board until the assets are amalgamated. As the Board earned no profits during 1940-41, it was decided that neither the Board nor the Department should pay interest in that year.

#### Central Road Fund .. .. .. Cr. Rs. 2,85,35,276

- 61. The head has been introduced for the adjustment of the additional revenue derived from the enhanced duties on motor spirit as a result of the recommendation of the Indian Road Development Committee. From the money accumulating under this head grants have been made to Provincial Governments and others for expenditure on any of the following objects, namely:—
  - (i) on the construction of new roads and bridges of any sort;
  - (ii) on the reconstruction or substantial improvement of existing roads and bridges;
  - (iii) on the interest and amortisation of loans taken after the 21st April, 1934 but approved or sanctioned before the 5th March, 1937 and spent on the construction, reconstruction or substantial improvement of roads and bridges;
  - (iv) in special cases, on the maintenance of roads and bridges, constructed, reconstructed or substantially improved from the Road Account since 1930;
  - (v) in special cases, on the maintenance of roads or bridges constructed, reconstructed or substantially improved from loans approved or sanctioned by the Governor-General in Council after the 21st April, 1934;
  - (vi) to meet charges including the cost of establishment connected with the control of motor transport and with the preparation of schemes of Road Development, or with the administration of provincial Boards of Communications.

This deposit head has also been debited with the cost of administering the Central Road Fund and the expenditure upon schemes for such research and intelligence and upon such special enquiries connected with roads and upon special grants-in-aid for such objects connected with roads as the Governor-General in Council has approved, these charges being met out of the portion constituting the reserve at the disposal of the Central Government. The amount at credit of this head on the 31st March, 1941 represents the undisbursed balance of the Central Road Fund held in deposit.

### Sugar Excise Fund ... ... ... Cr. Rs. 2,04,643

62. An amount equivalent to one anna of excise duty per hundredweight of sugar was originally set aside for the purpose of assisting the cultivators of sugarcane in securing fair prices for their cane. The funds were to be distributed only upon the submission of approved schemes by the Provincial Governments. With effect from 1st April, 1939 it has been decided that the first call upon this Fund should be the requirements of the Imperial Institute of Sugar Technology, Cawnpore. Next,

money is found for properly co-ordinated schemes of sugar research and cognate activities conducted by the Imperial Council of Agricultural Research. The balance is available for grants to Provincial Governments on schemes ancillary to the Imperial Council of Agricultural Research Schemes designed to test the results of those schemes in particular areas. The amount set apart from the excise duty on sugar and the receipts of the Imperial Institute of Sugar Technology are credited to the Fund and the amount of disbursements on account of grants to Provincial Governments and other authorised expenditure is debited to it.

#### General Police Fund .. .. ..

Cr. Rs. 24,503

63. This fund was established under the Police Act of 1861 and was financed partly from the receipts of levies for punitive police and partly from receipts in connection with police employed for the benefit of private individuals and firms. The continuance of the Fund being illegal under the Government of India Act, 1935, it has been abolished and the balance credited to general revenues in 1941-42.

#### Civil Aviation Fund

Cr. Rs. 2,76,734

64. An amount equivalent to the additional duty on petrol consumed for aviation purposes is transferred as a block grant to this Fund by debit to the head "44-Aviation—Appropriation to Civil Aviation Fund". The actual expenditure met from this Fund on account of grants-in-aid to flying clubs, and on the training of pilots, etc., is initially brought to account under "Special Grants-in-aid from the additional tax on petrol consumed for aviation purposes" subordinate to the major head 44-Aviation, and is ultimately transferred to this Fund by book adjustment at the end of the year.

#### Panth Piploda Reserve Fund

Cr. Rs. 15.206

Panth Piploda Reserve Fund Investment Account

Dr. Rs. 14,938

65. The Panth Piploda Reserve Fund was opened in 1939-40 to record the balance of annual contributions for supervision charges recovered from the Thakurs of Panth Piploda in excess of actual requirements. A portion of the Fund was invested in Government securities and Postal Cash Certificates. The debit balance in the Investment Account represents the cost price of these investments. The interest realised on the investment is credited to the Fund.

The acceptance of the balances is still awaited.

Fund for the Economic Development and Improve	ment		$\mathbf{Rs.}$
of Rural Areas	• •	Cr.	52,78,299
Fund for the Development of Civil Aviation	• •	Cr.	18,35,411
Fund for the Development of Broadcasting	• •	Cr.	5,84,105
Fund for special Frontier Expenditure including D	eve-		•
lonment		Cr.	15.15.343

66. These funds were created out of the revenue surplus which accrued to the Central Government at the close of the years 1934-35 and 1935-36 in order to finance certain measures of public utility.

The amount at credit of the Fund for the Economic Development and Improvement of Rural Areas is intended for distribution to the Provinces and centrally ad-

ministered areas for expenditure on schemes for the amelioration of the condition of the cultivators and rural classes.

The Fund for the Development of Civil Aviation is intended for the development and organisation of air routes in India.

The Fund for the Development of Broadcasting provides a reserve for constructing a large transmitting station in Delhi and ultimately a similar new station at Madras, for improving and extending the existing stations at Calcutta and Bombay and provision of transmitters and receiving centres at other stations in India.

The Fund for Special Frontier Expenditure including Development is intended for the construction of roads in tribal areas in the North-West Frontier Province and for various schemes of economic development in those areas.

#### Depreciation Reserve Fund—Government Presses

Cr. Rs. 12,41,387

67. This Reserve Fund is credited with depreciation calculated on the depreciated value of the plant, machinery and furniture in use in Government of India Presses as also with the residual book value of plant, machinery and furniture disposed of during the year. Appropriations from the Reserve are made to meet the cost of replacement of plant, machinery, etc. The balance, as per separate register maintained in the Audit Office, is Rs. 12,41,473-13-1. The difference is under adjustment in the accounts for 1941-42.

#### Renewals Reserve Fund—Defence Services

Cr. Rs. 13,88,890

68. The details of this account are as follows.

,		•	Name of the	Fund.

71. These are mostly cash balances in the current accounts of local funds and other local authorities which are permitted to use the Government treasuries as their banks. Each fund has an administrator, either a public officer or a committee, and the verification consists firstly, in reconciling the figures as between the broadsheets which are posted from the treasury plus and minus memoranda and the ledger, and secondly in ascertaining how far the administrator accepts the balance standing at his credit on the Government books.

There is a difference of Rs. 3,927 between the ledger balance and the corresponding figure in the broadsheet relating to District Funds under Central Revenues. The discrepancy is under settlement. The balance shown in one acceptance certificate in respect of District Funds under Coorg differs from the book balance and the difference is under reconciliation. The balances under Central Revenues relating to District Funds, Medical and Charitable Funds and Other Miscellaneous Funds have not been accepted in all cases. Acceptance certificate is also awaited in one case against Town and Bazar Funds under Baluchistan.

The balance under "Depreciation Reserve Fund, Vizagapatam Port" is the net balance excluding Rs. 5,66,345 invested in securities.

#### Deposits of Branch Line Companies

Cr. Rs. 88,806

72. The balance under this head is the net amount of the deposits with the Government made by Branch Line Railway Companies for capital 'expenditure on their lines.

The details are :-

							Cr.
Railways.							Rs.

The above balance (viz. Rs. 88,806) agrees with that shown in the books of the Companies except in respect of certain branch lines worked by the North Western Railway where the certificates accepting the balances are awaited. On the Assam Bengal Railway the balances could not be accepted in two cases due to wrong adjustments which have since been set right in 1941-42.

74. Revenue, Civil and Criminal Courts' deposits are not kept distinct in the North West Frontier Province, where the whole of the civil work (Revenue, Judicial and Criminal) is in charge of the same Deputy Commissioner. A similar arrangement is also in vogue in some of the districts in the Punjab.

There are two entirely different systems of deposit accounts. The first may be called the detailed plan, in which every receipt is treated as a separate item and every payment charged against some particular receipt. The second is the ledger plan, that is, a running account is kept of receipts and payments on some particular account (an estate, an institution, etc.). To every Ledger Account there is an "Administrator", the person authorized to pay money into the treasury or draw it out. Deposits kept on the latter plan are termed Personal Deposits.

The verification of the balance on the first plan is as follows:—

The receipts and payments, which are recorded in detail in deposit registers, are posted monthly by totals into a proof sheet which provides columns for recording the repayments of deposits credited in the same year and in each of the three preceding years. At the end of the year balances are struck upon the proof sheet separately for the different districts for each of the four years. The balance of the first year is usually written off the deposit account, as all balances unclaimed for more than three complete accounts years are ordinarily credited to Government. The aggregate balance on the proof sheet is then agreed with the balance on the general books of the class of deposits concerned and finally reconciled with the plus and minus memoranda received from treasuries or, where necessary, with the accounts received from Civil and Criminal Courts. The verification of the ledger form of deposit account consists mainly in agreeing the balance with that claimed by the administrator.

#### 

75. These are mainly deposits made in Revenue Courts or in connection with the revenue administration. They also include earnest money deposits made by intending tenderers for contracts, etc., in the Civil Departments. Deposits on account of Civil and Criminal Courts in the North-West Frontier Province are also included under this head. In one case in the United Provinces there was a discrepancy between the District balance and the treasury plus and minus memorandum. In the Punjab there was a difference of Rs. 50 in the figures of the ledger balance as compared with the proof sheet and treasury registers. Acceptance certificate is awaited in one case in the North-West Frontier Province.

#### 

76. The transactions recorded under this head are of the nature of a banking deposit account. It has been verified that no personal ledger account was opened except with the sanction of the competent authority. Certificates of acceptances of balances are still awaited in two cases in Baluchistan, sixteen in Bombay, three in the United Provinces, twenty five in the Punjab, two in Bihar, and in one case in the North-West Frontier Province. In one case in Madras the balance shown in the certificate of acceptance is under reconciliation with the book balance. In the United Provinces, the balance of the personal ledger accounts agrees with the ledger except in seven treasuries.

There was an overdrawal in one case in the North-West Frontier Province which was made good in April, 1941.

#### Political Agent's Deposits

Cr. Rs. 51,690

77. This deposit head is intended for the record of receipts coming into the hands of the Political Agents and Deputy Commissioners in the North-West Frontier Province administering tribal areas for disbursement to tribes, which prior to the abolition of certain irregular funds were kept out of Government accounts.

#### Public Works Deposits

Cr. Rs. 16,71,264

78. Cash deposits from subordinates and contractors as security, deposits for works to be done for private persons and public bodies, sums due to contractors on closed accounts and unclassified items of miscellaneous receipts, are adjusted under this head. The amount represents the net balance excluding Rs. 1,033 in the Punjab, which has been deposited in the Post Office Savings Bank.

## Indian Stores Department Deposits

Cr. Rs. 22,06,729

79. The balance represents the amount deposited in advance by quasi-public bodies and Indian States, etc., for purchase of stores through the Indian Stores Department as well as the amounts deposited by contractors of the Indian Stores Department for the due performance of their contracts.

#### Steel Deposits

Cr. Rs. 3,78,872

80. The balance represents amount deposited in advance by indentors in respect of steel purchased in the United States of America.

#### Trust Interest Funds

Cr. Rs. 1,41,181

81. The balance under this head represents mainly the amount of the interest payment orders issued in connection with the payment of interest on Government securities held in trust remaining unpaid on 31st March, 1941.

The balance under Central Revenues includes Rs. 83,800 on account of discharged value of securities invested in the accounts of Trust Interest Fund.

### Indian Research Fund

Cr. Rs.—12,751

82. This head is intended to record the transactions of the Indian Research Fund Association. The balance under Central Revenues (—Rs. 14,718) includes the balances under the following sub-heads viz., (1) Indian Research Fund Association (—Rs. 35,348), (2) Deposit Account of the grant made by the Indian Research Fund Association (—Rs. 103) and (3) Indian Research Fund Association Contributory Provident Fund (Rs. 20,733). The debit balance against (1) above is due to overdrawal in 1940-41 which has since been made good. Acceptance certificate in respect of this balance is awaited. The debit balance against (2) is due to expenditure incurred in excess of the credit balance.

## Unclaimed Provident Fund Deposits ...

Cr. Rs. 66,161

83. The balance represents the amounts in the General Provident Fund and the Contributory Provident Fund remaining unclaimed for a period exceeding six months.

### Deposit Account of Railway Freight for Kharagodha Salt

Cr. Rs. 6,710

84. Money received from contractors in respect of removal of salt from Kharaghoda is credited to this head and the debits raised by the Railways on account of freight charges are met from these credits.

### Deposits on account of Police Fund ...

Cr. Rs. 90,026

85. Acceptance of the balance is awaited in the case of Baluchistan.

### Deposits on account of moneys received on account of the King Emperor's Anti-Tuberculosis Fund

Cr. Rs. 4,930

86. This deposit head accommodates receipts at treasuries on account of the King Emperor's Anti-Tuberculosis Fund pending remittance to the authorities concerned.

### Repatriation Deposits

Cr. Rs. 26,720

87. This is a temporary minor head opened to accommodate deposits from the British Indians residing in Iraq.

### 

Cr. Rs. 1,99,478

88. In the Punjab, seven certificates of acceptance of balance are still awaited.

### Deposits on account of money received for Indian Red Cross Society and St. John Ambulance Association

Cr. Rs. 46,999

89. Two certificates of acceptance of balance have not been received in the Punjab. The accounts mentioned in this paragraph and in paragraph 88 were opened for the reception of contributions towards the Funds concerned at places where there are no branches of the Imperial Bank of India.

### Repatriation and Other Deposits of Pilgrims

Cr. Rs. 6,867

90. The repatriation deposits of pilgrims granted pilgrim passes for Iraq o Hejaz and additional deposits received from those intending to make overland journey are credited to this head pending payment to the Port Haj Committee, Karachi.

# Deposits for work done for Indian States, public bodies or private individuals

Cr. Rs. 419

91. This represents sums received in advance from Municipalities or other bodies financially independent of Government for payment of compensation for land acquired for them as well as amounts deposited by Indian States for survey work to be done by Government officers in the States.

#### Deposits of Defence Loans

Cr. Rs. 16,94,986

92. Cash credits on account Defence loans are adjusted under a Deposit head pending their adjustment in the books of the Accountant General. Central Revenues, under the respective loan heads under Section N. after reconciliation of the amounts reported by the Public Debt Office with the corresponding amounts brought to account in Government books.

The principal amount included in the above balance is a sum of Rs. 16,21,170 representing loan receipts relating to the 3 per cent. (2nd Defence loan), 1949-52 which could not be allocated between "Loan" and "Interest" before the close of the year.

### Deposit account of Tungan Gold ... Cr. Rs. — 18,642

93. The balance under this head represents expenditure incurred in connection with the Tungan refugees, which will be met from the sale proceeds of Tungan gold deposited in the Calcutta Mint and accounted for in 1941-42.

### Other Deposits ... Cr. Rs. 4,91,57,942

94. These comprise the deposits on the books of the non-Civil Account Officers, the details of which are as follows:—

									Cr.
و آه آه	•		•						Rs.
Posts and Tel	egraphs				••	.,			1,29,69,551

Other items	••	• 6:	• •	••	• •	• •		13,04,001
						Total	• • •	1,29,69,551

96. Savings Bank Accounts in which no transactions have taken place for a specified period are transferred to a separate ledger called *Dead Savings Bank Ledger*. The amount outstanding in this ledger does not lapse to Government but is retransferred to the current Savings Bank Ledger when the account is revived on the application of the depositor.

The balance under the head *Unclaimed General Provident Fund Deposits* represents the amounts in the Provident Funds remaining unclaimed for a period exceeding six months after they become payable under the rules. These unclaimed amounts are transferred to the head "Deposits" at the end of each year.

The balance under Trust Interest Accounts represents the interest on Government securities held on behalf of Posts and Telegraphs employees and contractors remaining unpaid at the close of the year under report.

The debit balance under Foreign Money Orders represents net transactions on account of money orders exchanged with foreign countries. A sum of Rs. 16,76,057 out of the outstanding balance has been adjusted in 1941-42.

## Unclaimed Savings Bank Deposits of less than Rs. 2 ... Cr. Rs. 12,32,919

97. Due to certain amendments to the Savings Bank rules with effect from 1st August, 1940, the Savings Bank accounts having balances of less than Rs. 2 on 31st July, 1940 have been treated as dead and the balances remaining unclaimed have been transferred at the end of 1940-41 to the minor head "Unclaimed Savings Bank Deposits of less than Rs. 2 on 1st August, 1940" specially opened for the purpose. Any future claims of the depositors of these accounts will be met from the balances outstanding under the above head.

### 98. The balance under Other Items is composed of: -

								Cr.
								Rs.
Fixed Deposits	• •	• •	• •	••	• •	••	• •	5,49,576
Trunk Call Deposits	••	• •		• •			• •	16,947
Indian Postal Orders	••	• •	• •	• •	• •	• •	• •	93,089
Miscellaneous	••	• •	••	• •	• •	• •		6,44,389
	٠					Total		13,04,001

The balance under *Fixed Deposits* includes deposits made by the firms, presses and other bodies and individuals for telegrams sent on the Deposit Account system. Under this system a deposit of an amount approximately equivalent to the cost of telegrams for a specified period is made by the parties concerned, and the telegrams sent daily are accepted by the Telegraph Offices without prepayment. The actual cost of the telegrams sent during a period is recovered by the department by presentation of bills. Under this head are also included deposits made by holders of Post Boxes for locks and keys supplied to them. These deposits are paid back to the parties when the service ceases.

Telephone subscribers who are not Government officials used to be required to make a deposit to enable them to make calls over the Trunk Telephone lines from their telephones. This system has, however, been held in suspense as an experimental measure from the 1st October, 1936 and the deposits held at the time are being adjusted against Trunk Call bills. The balance under Trunk Call Deposits represents balance of these deposits at the end of the year 1940-41.

The balance under *Indian Postal Orders* represents the difference between receipts and payments in respect of Indian Postal Orders issued during 1940-41.

The balance under the head *Miscellaneous* is made up of a number of miscellaneous accounts such as excess credits in the cash accounts, miscellaneous deposits not coming under any other category, balance of British penny postage stamps held in stock, short payment of recoveries of wrong payment of money orders, customs duty on Foreign Mail parcels, cash certificates short payments, etc. The balances have been verified with the exception of a few items aggregating Rs. 1,88,616. Out of this a sum of Rs. 5,362 has since been adjusted in the accounts for 1941-42.

### Defence Services Deposits

Cr. Rs. 1,44,63,767

99. The particulars are detailed below:-

### Subventions from Central Road Fund

Cr. Rs. 5,64,288

108. This head is credited with subventions made from the Central Road Fund to Minor Administrations under the Central Government and in the tribal areas in the North-West Frontier Province for expenditure on approved scheme of road development and other objects mentioned in paragraph 61 and is debited with expenditure met from these grants. The balances under this head represent the amounts of the allotments from the Central Road Fund not spent on road development schemes, etc. to end of the year. Certificate of correctness of the debits and credits to the Fund and acceptance of balance are awaited in the North-West Frontier Province.

### Deposit Account of Grants for Economic Development and

### Improvement of Rural Areas

Cr. Rs. 10,439

109. The above head is credited with grants from the Fund for the Economic Development and Improvement of Rural Areas, to centrally administered areas to be spent on schemes for the amelioration of the conditions of the cultivators and the improvement of rural areas. The balance under this head represents the amount of the grant from the Fund not spent to the end of the year.

### 

Cr. Rs. -28,807

110. This head records transactions connected with grants received from the Imperial Council of Agricultural Research for expenditure on schemes of agricultural research and other allied objects. The debit balance under Central Revenues is due to expenditure on certain veterinary research schemes having been incurred prior to receipt of deposit from the Imperial Council of Agricultural Research. A sum of Rs. 37,600 out of Rs. 41,684 due has been recovered in 1941-42. Acceptances of balances under Central Revenues are awaited.

### Deposit Account of the Dangs

Cr. Rs. 12,03,629

111. The receipts and payments connected with the administration by the Crown Representative of the Dangs area in Surat District in Bombay, are accounted for under this head in the books of the Accountant General, Bombay.

### Balance of Coorg

Cr. Rs. 3,70,975

112. The outstanding balance under this head represents the balance of the Government of Coorg in deposit with the Central Government on the 31st March, 1941.

### Transactions connected with the War, 1939

### The War Risks (Goods) Insurance Fund

Cr. Rs. 29,95,576

113. This represents the balance of the War Risks (Goods) Insurance Fund which was established by Section 9 of the War Risks (Goods) Insurance Ordinance, 1940, in connection with goods Insurance Scheme put into operation by the Central Government from the 1st October, 1940, in accordance with the provisions of Section 5 of the Ordinance.

116. The Civil Advances include (i) various special accounts of large advances or of recurring outlay which are recoverable from different sources and (ii) a number of petty miscellaneous advances arising in the course of business and recoverable within a short time. The former are usually watched through separate accounts working up to the ledger; the latter pass only as a single account upon the ledger, but are recorded in detail in the Objection Books, through which the recoveries are watched. In the latter case, the ledger balance has to be agreed with the aggregate of the details in the "Objection Books", and in the former, similar reconciliation is necessary in those cases in which different classes of transactions are included in the same account.

### Objection Book Advances

. Dr. Rs. 11,14,083

117. The ledger balances against this head are agreed with those shown in the broadsheets maintained in the Civil Account Offices and, therefore, with the aggregate of the items recorded as outstanding in the Objection Books. The discrepancies of Rs. 4,327 in Central Revenues, Rs. 146 in Assam and Rs. 160 in Bengal between the balances in the ledger and those in the broadsheets are still under settlement.

The credit balance in Bombay is due to a book adjustment of Rs. 1,33,617 on account of operative loss on silver coinage during 1940-41, carried out by credit to this head and debit to "49—Mint—Loss on Coinage" pending transfer of an equivalent amount from the Government Account to the stock of surplus rupees. The credit balance under 'Objection Book Advances' has been cleared in 1941-42.

A sum of Rs. 400 relating to this head in Central Revenues was written off as irrecoverable in the accounts for 1940-41.

### Other Advances

Dr. Rs. 1,68,785

118. The outstandings under this head represent the balance of various advances for departmental and other purposes.

The outstandings are either verified with separate accounts maintained in Civil Account Offices or agreed with the detailed statements received from the officers holding such advances. The credit balance under Sind has been cleared in 1941-42.

### Special Advances ...

Dr. Rs. 33,05,400

119. This head records advances granted to Government officers and others under special orders of Government. A sum of Rs. 290 was written off during 1940-41 in Madras.

### Advances for Survey Operations

Dr. Rs. 36,848

120. The balance under this head represents the amounts of outstanding advances for expenditure on surveys, which are recoverable from private owners and other parties. There is a difference of Rs. 59 between the ledger balance and the balance in the broadsheet maintained for the purpose.

#### Dr. Rs. 105 Salt and Excise Advances

121. The balance under this head represents amounts recoverable on account of S

	orage Works								er report.

							Total	••	7,97,280

There was a difference of Rs. 4,037 between the aggregate of the ledger balances and that of the separate accounts maintained in the audit office, out of which a sum of Rs. 2,321 has been adjusted. A sum of Rs. 14,788 involving 310 cases was written off during the year under report.

123. Item (i), Objection Book Advances, represents mainly amounts of pay bills of Railway Mail Service officers remitted for disbursement and the outstanding advances of pay and travelling allowances granted to officials at the time of their transfer. It also includes departmental losses which will either be recovered from the officials responsible for them or will have to be written off to Revenue. balance includes an unadjusted sum of Rs. 20,328 out of the amount of Rs. 50,048 defalcated in the Madras General Post Office in March and April 1938. A sum of Rs. 2,400 has been ordered to be recovered from the officials at fault and the remainder, viz., Rs. 17,928 has been ordered to be written off.

Items (ii) Overpayment of Money Orders, (iii) Cash Certificate overpayments and (v) Excess debit or short credit of Customs duty realisation relate to overpayments which will be adjusted either by recoveries from the public or from Departmental officials responsible for making overpayments or short credits or by write-off to Revenue.

Item (iv) Customs duty on foreign mail articles relates to the amount of customs duty levied on articles of inward foreign mails credited to the Civil Department in advance of recovery of the amount from the addressees of the articles.

Item (vi) Miscellaneous relates to the amounts advanced to Electric companies as security deposits. It also includes the balance of amount advanced for family allotment.

### Advances Recoverable—Defence

Dr. Rs. 78,49,413

### Permanent Advances

Dr. Rs. 4,15,730

125. Certificates of acceptance of balances under this head are awaited in seven cases in the Military Accounts and Pensions, Lahore and five cases in the Southern Command.

### Advance Proper

Dr. Rs. 71,89,901

<sup>126.</sup> Northern Command.—The balance includes Rs. 2,01,241 representing advances made to various newly raised units and Rs. 5,906 on account of advances for officers' mess equipment.

Military Accounts and Pensions, Lahore.—The balance is composed of (i) Rs. 35,191 on account of advances to recruiting officer, Hong Kong Singapore, Royal Artillery, Singapore as imprest, (ii) Rs. 35,050 on account of advances paid to units and formations for the purchase of officers' mess equipment, (iii) Rs. 94,355 on account of advances paid to newly raised units, etc., (iv) Rs. 26,911 being the balance of advances against the Field Imprest holders and (v)—Rs. 31,147 representing the balance of unadjusted amounts transferred to the office of the Field Controller of Military Accounts, Poons on the transfer of the Field accounts to that office from other Military Accounts offices.

Southern Command.—The major items comprising the balance are (i) Rs. 1,60,636 on account of balance in respect of advances paid to newly raised units, (ii) Rs. 78,275 on account of closing balance of the cash accounts of the Field Cashiers at Bombay and Deolali, (iii) Rs. 23,939 on account of advances paid by the Field Cashiers to the Air Ministry personnel and (iv) Rs. 61,734 being expenditure debited to this head for want of full particulars.

Eastern Command.—The balance includes (i) Rs. 16,980 representing cost of stores due from the Tibet Government, (ii) Rs. 29,887 on account of unexpended balance of cash accounts of certain units, (iii) Rs. 2,35,265 on account of interest free advances paid to newly raised units and formations for regimental purposes and (iv) Rs. 2,01,380 representing balance of advances made to Recruiting Officers for Gurkhas, Military Engineer officers, etc., to meet the expenditure on account of advances of pay, etc., to recruits and other personnel.

The credit balance under Naval Accounts is mainly due to advances received by His Majesty's Indian ships from the Aden treasury and the Union Bank of Scotland, debits for which are awaited.

The principal items comprising the balance against Field Accounts, Poona, are (i) advances relating to the Field Cashiers' account (Rs. 6,08,813), (ii) outstanding Imprest Holders' accounts (Rs. 33,73,633), (iii) advances adjustable in the office of the Controller (Rs. 10,63,360) and (iv) amount outstanding under Advances— Unit Accountants (Rs. 7,68,868).

### Navy Bills Receivable

Dr. Rs. 3,06,005

- 127. The balance represents claims against His Majesty's Navy for cash and stores supplied to or work done for His Majesty's ships. A sum of Rs. 2,99,206 has been adjusted during 1941-42, leaving a balance of Rs. 6,799.
- 128. The credit balances under the head Advances from Military Treasure Chests represent the value of cheques remaining uncashed on the 31st March, 1941.

## Advances Repayable (England)—

# High Commissioner for India ...

129. The balance represents the outstanding amount of various advances made by the High Commissioner. This amount includes an item of £3,711 for maintenance M274AGCR

in England of Indian students temporarily stranded on account of the War or experiencing delay in receiving remittances from India.

-						r	otal	••	3,40,815

131. These advances are granted to officers of Government who have to meet contingent expenditure before they can place themselves in funds by drawing bills on treasuries, etc. Certificate accepting the balance has not been received in one case under Central Revenues. In two cases in Coorg, the balances shown on the acceptance certificates are under reconciliation. Under Central Revenues, there is a discrepancy of Rs. 250 between the ledger balance and the aggregate of the balances shown in the separate registers.

The Posts and Telegraphs balance includes Rs. 5,000 held by the Superintendent, Postal Seals, Aligarh as working capital.

The balance against Railway, viz., Rs. 33,043 represents the amount of imprest or cash held by the Home Boards of the company worked railways and their Consulting Engineers in England. A sum of Rs. 1,050 was transferred from Permanent Advances, Railway, to State Railway Cash Balances without financial adjustment.

The debit balance in the accounts of the Secretary of State represents miscellaneous expenditure on behalf of the Imperial Government. It consists of amounts paid in 1940-41 which are expected to be adjusted in 1941-42.

The debit balance in the High Commissioner's accounts is made up of (i) pensions (£2,350) issued to retired officers of the Central Government in respect of their services in various departments of the Imperial Government, (ii) salaries (£173) issued to two officers of the India Store Department, London, whose services have been lent to the Imperial Government and (iii) freight and shipping charges (£5) on stores shipped to India on behalf of the Imperial Government by the India Store Department. The amounts against (i) and (ii) have been recovered in 1941-42 and action is being taken for the recovery or adjustment of the amount against item (iii).

134. The outstandings under Colonial and other Foreign Governments represent generally the balances due by or to those Governments, the accounts of which were not settled at the close of the year.

As per separate register maintained in the Account Office, the amount of charges on account of Quarantine Officers recoverable from the Iran Government is Rs. 61,699. The discrepancy will be settled when the final orders of the Central Government are received regarding the adjustment of the outstanding amount.

135. The following are the details of the balances under Account Current with Indian States:—

### Central Revenues.

Out of the balance shown above against Cooch Behar, a sum of Rs. 6,31,015 is the balance of Government money lying in the Cooch Behar State treasury which under special arrangements makes payment and receives money on behalf of Government. The amount does not, therefore, represent any claim outstanding against the State. The residual balance against the Cooch Behar State as well as the balances against the other States are on account of claims outstanding against them. A sum of Rs. 848 has since been recovered and the remaining amounts are in course of recovery.

The outstanding debit balances against the various States have since been recovered.

136. The Posts and Telegraphs balance is made up of (i) Rs. 49,895 (credit) representing net payments by Post Offices on account of money orders exchanged with Indian States, (ii) Rs. 2,12,230 as net payments made by Post Offices into Durbar treasuries, (iii) Rs. 36,455 (credit) on account of transfers of Savings Bank Accounts between Indian Post Office Savings Bank and the Postal Savings Banks of foreign countries and (iv) Rs. 256 representing the balance of the accounts exchanged between the Indian Posts and Telegraphs Department and His Majesty's Colonial Government, Aden. The entire balance has been adjusted in the accounts for 1941-42.

### Accounts with the Government of Burma ... Cr. Rs. 1,08,77,215

137. The balance under this head represents the financial transactions of the Central Government with the Government of Burma remaining unadjusted through the Rsserve Bank of India at the close of the year. The balance has been cleared in 1941-42.

### Accounts with the Reserve Bank ... Dr. Rs. 9,26,376

138. The receipts and payments on account of the Reserve Bank occurring in Government (Central) treasuries are recorded under this head until they are cleared by the Accountant General with the Bank. The details are:—

### Bullion Advances . . . . . . . . . . . Dr. Rs. 36,90,087

140. The debit balance represents the value of bullion received in the Mints but not cleared by coin delivered.

### Bronze (and Copper) Coinage Account

Dr. Rs. 16,03,460

141. The balance represents the difference between the value of metal in store plus the amount of bronze coins in the Mints on the 31st March, 1941 and the profit on coins in stock on that date in the Mints and Small Coin Depots, which is not credited to revenue before actual issue of the coins. The details of these balances on the 31st March, 1941 are as follows:—

			Calcutta. Rs.	Bombay. Rs.
(1)	Bronze Mintage Account, being the value of metal in store in the Mints on 31st March, 1941	Dr.	18,32,369	5,62,606
(2)	Bronze Coin Account, being the amount of bronze coins in the Mints on 31st March, 1941	Dr.	5,81,100	4,99,200
(3)	Mint Profit Account, being the profit on coins in stock on the above date in the Mints and Small Coin Depots not yet brought to credit as revenue	Cr.	18,71,815	,
	Total :		•	5,275 1,815
		Net	Dr. 16,0	3,460

There is a discrepancy of Rs. 32,333 in Bengal between the ledger balance shown above under Bronze Mintage account and that shown in the Mint Master's statement and store account of Bronze Mintage due to the fact that the latter does not take into account certain adjustments carried out in the accounts of March, 1941 supplementary (2nd batch).

The difference of Rs. 6,77,076 between the account figures and the Mint Store Account in Bombay represents mainly unadjusted debits on account of the value of stores supplied by the India Store Department.

### Nickel Coinage Account

Cr. Rs. 27,34,847

27,34,847

142. The balance represents the difference between the value of nickel and cupro-nickel in store plus the amount of nickel coins in the Mints on the 31st March, 1941 and the profit on nickel coins in stock on that date in the Mints and Small Coin Depots which is not credited to revenue before actual issue of the coins. The details of these balances on the 31st March, 1941 are as follows:—

	Calcutta. Rs.	Bombay. Rs.
(1) Nickel Mintage Account, being the value of nickel, cupro-nickel and voleston in store on 31st March, 1941 Dr.	10,06,009	5,19,250
(2) Nickel Coin Account, being the amount of nickel coins in the Mint on 31st March, 1941	27,69,000	52,68,245
(3) Mint Profit Account, being the profit on coins in stock on 31st March, 1941	1,22,97,351	
Total Cr. Total Dr.		2,97,351 5,62,504

Net Cr.

Under Nickel Mintage Account there is a discrepancy of Rs. 1,37,840 in Bengal between the ledger balance and that shown in the Mint Master's statement as the latter does not include certain adjustments made in the accounts for March, 1941 supplementary (2nd batch). The balance in this account under Bombay also differs from the accounts of the Mint by Rs. 2,886 mainly owing to the value of nickel purchased by the India Store Department, London remained unadjusted in the Account Office in 1940-41.

### Quaternary Coinage Account

Dr. Rs. 4,61,09,396

143. The details of	the pa	lance ar	e snowi	ı perom :-	Calcutta. Rs.	Bombay. Rs.
(1) Quaternary Mintage Accou	ınt				Dr. 1,88,52,554	2,28,18,433

					Total Dr. 6,08,	30,151
					Total Cr. 1,47,	20,755
					Net Dr. 4,61,	09,396

The balance against Quaternary Mintage Account represents value of quaternary silver and alloy in stock at the Mints on the 31st March, 1941 and that against Quaternary Coin Account represents the amount of quaternary coins in the Mints on that date. The balance against Mint Profit Account represents the profit relating to the coins in stock at the Depots and Mints on the 31st March, 1941.

### Small Coin Depot Balances ...

Dr. Rs. 1,71,89,720

144. This represents the non-legal tender coins kept in stock for delivery to treasuries as required. Not being actual available cash, the balance is held at debit of this account instead of as part of the general cash balance.

The details of the balance are:

The desails of	1 0110 00	initio ur		Silver.	Nickel.	Bronze and Copper.	Total.
(1)				(2)	(3)	(4)	(5)
				Rs.	Rs.	Rs.	Rs.

		Total	••	1,08,18,169	53,09,065	10,62,486	1,71,89,720

Instructions have been issued for keeping the balances of quaternary small coins separate from those of silver coins. In the case of Central Revenues, the correctness of the balances relating to the Depots in Burma has not been tested by a physical verification of coins. In Sind, one certificate of verification of balance is wanting.

### Quaternary Rupee Coin Balances ... Dr. Rs. 61,12,000

145. This head accommodates transactions connected with the issue to, and return by, the Reserve Bank of India, of quaternary rupee coins. The debit balance represents the amount of quaternary rupee coins held in the custody of the Reserve Bank on the 31st March, 1941 for issue to treasuries. As in the case of the small coin depot balances, the balance of quaternary rupee coins held in stock is excluded from the general cash balance of Government.

### Objection Book Suspense

Cr. Rs. 5,505

148. This is the main suspense head upon the Civil books. The transactions under this head represent items which due to insufficient information or other reasons cannot be allocated to the proper head in the Accounts. These entries are zealously watched, as there is a general rule that this head should not be operated upon without special orders in each case.

As in the case of balances under Objection Book Advances, the ledger balance under this head has to be agreed with the aggregate of the separate accounts in the Objection Books. There is a discrepancy of Rs. 120 under Central Revenues between the ledger and the broadsheet. The discrepancy is under settlement.

### **Bushire Suspense**

Dr. Rs. 1,11,347

149. The net outstanding balance under this head includes a sum of Rs. 1,25,725 being the balance of the amount recoverable from the Hejaz Government for the cost of arms and ammunition supplied by the Central Government.

### Discount on Treasury Bills

Dr. Rs. 6,79,545

150. The debits under this head relate to discount in respect of treasury bills issued to the public which did not accrue during the year under report, the debits being cleared by charge to revenue in the following year when the bills are paid off on maturity.

### Other Suspense Accounts

Dr. Rs. 70,62, 692

Cr. Rs. 1,45,794

151. The debit balance includes a sum of Rs. 18.39,071 outstanding in the books of the Accountant General, Central Revenues under the suspense head "Security Purchase Account". This suspense account will be cleared on receipt of the orders of the Central Government, when the scheme of repatriation of Sterling Debt is finally closed.

The debit balance against "Other Suspense Accounts" also includes a sum of Rs. 6,64,299 outstanding in the books of the Controller of Supply Accounts, Civil, under "Stores purchase suspense".

### English Stores Suspense

Dr. Rs. 47,469

152. Debits and credits on account of English Stores which appear in the Home Accounts, and which are required to be adjusted entirely and exactly in the Indian Accounts are taken under this head if they cannot be finally adjusted under the appropriate heads at once.

### Cash Balance Investment Account

Dr. Rs. 46,44,66,300

153. The balance under this head includes Rs. 46,43,86,300 being the balance of Rupee Securities created in connection with the scheme of the repatriation of Sterling Debt remaining unsold on 31st March, 1941 and a sum of Rs. 80,000 being the value of the Reserve Bank shares held by Government under Section 4 (8) of the Reserve Bank of India Act II of 1934.

### Discount Sinking Fund .. .. .. Dr. Rs. 8,35,70,729

154. The discount on Rupee loans is charged in the first instance to this suspense head and is gradually written off by annual payments out of revenue, the instalments being calculated on a Sinking Fund basis. The balance is distributed as shown below:—

										Rs.

### 

Dr. Rs. 10,00,000

155. The balance represents the amount placed at the credit of the Governments of the United Provinces and the Punjab as a permanent deposit to cover the amount by which the Provincial balance is depleted on account of central transactions in non-Bank Provincial treasuries and sub-treasuries.

### Value of one rupee notes issued

Posts and Telegraphs Suspense

Cr. Rs. 9,44,45,709

Cr. Rs. 3.97.540

156. The balance represents the value of one rupee notes taken over during 1940-41 by the Reserve Bank of India for issue, less the share of receipts allocated to Burma.

Tong and Forography Pashons.	••			• • •	. 01. 100. 0,01,010		
157. The balance is made up of:—

(iv) Miscellaneous	• •	• •	• •		Dr.	29,729	
			Net Cr.		<del></del>	3,97,540	

Item (i) represents the balances of stamp imprests held in cash by Telegraph Masters on the 31st March, 1941.

Item (ii) represents the amounts of 'Trade Charges Money Orders' held under suspense. By a special arrangement with certain foreign countries, the value of articles sent by Parcel post is collected from the addressees and the amounts so collected, technically called 'Trade Charges', are remitted to the senders by card Money Orders. These amounts are placed under 'suspense' pending settlement with the Administration concerned.

Item (iii) is composed of:—	•

	Total		+22,36,268	-2,45,606	+19,90,662

The credit balance under column (2) against Northern Command, brought forward from 1939-40, represents receipts accruing from the disposal of surplus military lands and buildings, held in suspense. The balance against Eastern Command represents the net balance of the amount realised from the sale of plots under the scheme for the Hastings Military Lands, Calcutta.

The outstanding balances shown under column (3) on the books of Military Accounts Officers are mostly miscellaneous debits and credits which could not be allocated to proper heads in the accounts of the year.

Head (i) is operated upon as railway earnings are remitted into the Banks and Treasuries. The balance represents the unaccounted for remittances and the difference between the amount accounted for in the treasury accounts and the Railway books.

Head (ii). The balance consists of (a) three sums aggregating Rs. 1,50,726 wrongly adjusted against Railways by certain non-Railway Accounts Officers and (b) a sum of Rs. 96,648 which could not be adjusted under final heads in the Railway books in the accounts of 1940-41. All these amounts have since been readjusted.

The balance under head (iii) represents uncashed cheques of the railways at the end of March, 1941. A sum of Rs. 4,197 relating to this head was written off during the year on the Bengal Nagpur Railway by minus credit under Earnings.

Heads (iv), (v) and (vi) exhibit separately the investments made from the Railway deposits, the Companies' Railways Provident Fund in respect of the Bengal and North Western Railway and the Rohilkhaud and Kumaon Railway and the Indian Railway Conference Association Employees' Provident Fund in Government and other securities.

161. The balances under these heads are explained below:—
Secretary of State.

Item (i) Discount on India Loans.—Represents the balance outstanding on 31st March. 1941 of the amount of discount incurred on the issue of sterling loans since 1921-22, which is in course of adjustment by appropriate half-yearly instalments against Revenue. The balance under this head excludes an amount of £6,273,931 representing the difference between 7 per cent. stock exchanged for 3 per cent. stock in 1921-24 and 3 per cent. stock issued in exchange.

Item (ii) Purchase of India stock, Premium, etc.—A sum of £200,000 is applied each year to the purchase and cancellation of debt in accordance with the provisions of various Acts now consolidated in the East India Loans Act, 1937. The nominal amount of stock purchased is recorded under "Public Debt" and the difference between this amount and the actual cost is adjusted direct against Revenue. In 1937-38, advantage was taken of the large sterling resources available to purchase and cancel an additional £2,150,000 of "dated" India stocks at a cost of £2,305,697. As the total amount of premium, though more than covered by the eventual saving in interest, is considerable, it is being adjusted against Revenue by half-yearly instalments during the remainder of the currency of the stock concerned.

Item (iii) Purchase of Railway Debenture Stock, etc.—The amount represents the cost of the Assam-Bengal Railway Company Stock purchased in anticipation of the termination of the Company's contract.

Item (iv) Sterling Family Pension Funds (Transferred).—The amount by which the annual receipts of subscriptions, etc., to the 'Transferred Section' of each of the four sterling family pension funds exceed or fall short of the amount of pensions paid, is payable to or recoverable from the Commissioners who now hold the capital of these Transferred Funds. Adjustment was made in 1940-41 of the estimated amount of transactions to 31st March. 1941 and the balance is adjustable in 1941-42. The particulars are:—

Amounts due to the Commissioners			$_{\mathfrak{L}}^{\operatorname{Cr.}}$
Superior Services (India )Family Pension Fund (Transferred)		• •	4,111
Indian Military Service Family Pension Fund (Transferred)			4,513
Indian Military Widows' and Orphans' Fund (Transferred)		• •	2,493
Indian Civil Service Family Pension Fund (Transferred)	••.	• •	11,814
	•		

Total - ..

22,931

- Item (v) Bengal and North-Western Railway 5 % Debenture (State portion) Stock Discount Sinking Fund.—The balance represents the accumulated amount of sums charged against the Railway Revenue Account, together with interest paid from General Revenues on the accumulated balance, to provide for the redemption on maturity in November, 1945, of the discount on issue (£88,000) of the State portion of the Debenture Stock issued in 1925 and 1932.
- Item (vi) Account with the Government of Burma.—This amount represents the balance of transactions in the accounts of the Secretary of State for India which are adjustable with Burma. The balance has been adjusted during 1941-42.
- Item (vii) Balances with Sub-Accountants.—Represents fixed imprests and outstanding balances of advances given to Banks, Dominion Governments, etc., in respect of payments made or to be made by them on Indian accounts.
- Item (viii) Account with the High Commissioner for India.—This account has been introduced as from 1st April, 1937 for the purpose of facilitating financial adjustments between the High Commissioner's Office and the India Office. Formerly, an account current was maintained, receipts and payments by one office on behalf of the other being adjusted against the lump sum transfers of cash made by the Secretary of State to finance the High Commissioner's requirements; but as a result of the new procedure for the accounting and adjustment of Home transactions, whereby the cash requirements of the High Commissioner are drawn directly from the Reserve Bank, revision of the system became necessary. It was accordingly decided, in agreement with the India Office, to deal with these transactions in the Suspense section through the medium of an account to be settled periodically in cash. The balance does not agree with the-corresponding figure shown in the High Commissioner's books (£549). The discrepancy represents items in course of adjustment on 31st March, 1941. The balances have been cleared in 1941-42.
- Item (ix) Miscellaneous.—The balance consists of sundry other items in course of adjustment.

### High Commissioner.

- Item (i) Balances with Sub-Accountants.—It represents balances formerly included in the cash balances, but which from the year 1934-35 have been transferred to a new sub-head under "Suspense."
- Item (ii) Account with the Government of Burma.—It represents the amount due from the Government of Burma in respect of payments made initially from the accounts of the High Commissioner for India.
- Item (iii) Passages.—It represents financial adjustments due from Shipping Companies which will be recovered in the year 1941-42.
- Item (iv) Account with the Secretary of State.—See item (viii) above under Secretary of State.
- Item (v) Miscellaneous.—It is the net result of miscellaneous debit and credit balances, and includes an unadjusted debit balance of £9,535 from advances made to the Union Government of South Africa on account of leave allowances and pensions of officers being paid in South Africa, for which adjustment has been effected in 1941-42.

Purchases and Sales of Silver .. .. Dr. Rs. 30,20,97,968

162. This head replaces the head "Gain or Loss on Revaluation, Sale, Transfer, etc., of Assets of the Paper Currency Reserve-Losses on Sales of Silver ' which was formerly used as a suspense head to accommodate the book losses arising out of sales of Currency Reserve Silver. The sum of the loss on sales of silver since the commencement of selling operations and the unadjusted balance under the suspense head "Sales of Silver" was taken as the opening balance this head on the 1st April, 1935. The equivalent of surplus sterling assets which lapsed to Government on the closing down of the Gold Standard Reserve, after allowing for Rs. 10 crores retained to constitute the Silver Redemption Reserve, was taken to the credit of this head in the accounts for 1935-36. of silver transferred for quaternary coinage and the net profit from the circulation of quaternary coins are also credited to this head. The outstanding debits are being gradually reduced by proceeds of silver sales and other receipts. Further debits to this head will consist mainly of (a) payments to the Reserve Bank for return of coin under Section 36 (1) of the Reserve Bank of India Act, except in so far as such payments are to be made in the form of sterling assets from the Silver Redemption Reserve; (b) amount of standard silver rupees returned by the Reserve Bank in exchange of quaternary rupees; and (c) incidental charges connected with silver sales including shipment of silver.

The balance against Central Revenues includes credit balances aggregating Rs. 5,330 which are under settlement. There is a small difference of 10 annas between the ledger balance and broadsheet in Central Revenues. It is under settlement.

#### Posts and Telegraphs Cash Balances

Dr. Rs. 1,61,02,584

166. The balances represent cash and stamps in the hands of Postmasters and cash in the hands of other disbursing officers of the department on the 31st March, 1941. The balances have been verified with separate cash balance certificates received from the Postmasters, Telegraph Masters, etc., except in two cases which are under correspondence.

#### Defence Cash Balances

Dr. Rs. 1,80,658

167. These are made up of (i) debit balances representing the actual cash balance on 31st March, 1941 in the hands of disbursing officers of the department and (ii) credit balances representing the amounts due to Officers Commanding Units and Formations on account of balances of pay and allowances due to British soldiers.

#### State Railway Cash Balances ...

Dr. Rs. 50,59,817

168. An imprest of Rs. 200 on the Eastern Bengal Railway could not be verified on the 31st March, 1941. Three imprests of the aggregate value of Rs. 155 were placed under suspense on surrender by certain departmental officers on the North Western Railway. This discrepancy has since been cleared.

#### Transactions connected with War, 1939 ...

Cr. Rs. 284

169. The balance represents credits on account of recovery from the widows and dependents of deceased seamen of advances originally made from the Shipping Masters' Personal Ledger Accounts pending transfer to these accounts. The balance has been cleared in 1941-42.

#### PART V.-MISCELLANEOUS.

			Total	••	58,622	6,241
				Net Dr.	52,381	

The credit balance in the books of the Secretary of State includes a sum of £4,222 on account of British Income Tax collected at the India Office not paid over to H.M. Imperial Government by 31st March, 1941, but adjusted in 1941-42. The debit balance of £58,622 shown against High Commissioner is the net result of various credit and debit items including a debit balance of £85,107 under the head; "Direct Indian Purchases." This debit balance is due to the fact that owing to conditions arising from the War, remittances from India were not received until after the 31st March, 1941. The balance has been adjusted in 1941-42.

#### SECTION Q.—LOANS AND ADVANCES BY THE CENTRAL GOVERNMENT

#### Advances to Provincial Governments

Dr. Rs. 1,20,56,55,588

172. The debit balance under this head represents the outstanding liability in respect of the loans granted by the Central Government to the Provincial Governments and to the Coorg Administration. It includes the balances of the liabilities of the Provincial Governments to the Provincial Loans Fund on the 31st March, 1937 which were not cancelled under the scheme for the decentralisation of balances and the cancellation and consolidation of debt on the introduction of Provincial Autonomy.

The amounts of the balances of loans outstanding against the Governments concerned are given below:-

rned are gr	seu pero	·						Rs.
							• •	7,32,33,434

		,						1 1 3

The entire balance shown against Bihar and a sum of Rs. 56,16,794 included in the balance against the United Provinces represent the balance of the advances granted by the Central Government during 1940-41 for the rehabilitation of sugar industry in these provinces.

#### Advances to Crown Representative

Rs. 21,59,154 Dr.

173. The balance represents the outstanding liability in respect of the advances made by the Central Government to the Crown Representative for loans to Indian States, Notabilities, etc. The following are the details of the balance:-

Durces, 110 tubilities, 600	•	2110 10120 !!				0. 3	Total.
		Central	Bombay.	Bengal.	Assam.	Sind.	10(41.
(1)		Revenues. (2) Rs.	(3) Rs.	(4) Rs.	(5) Rs.	(6) Rs.	(7) Rs. 12,71,089
Loans to Indian States		7,31,194	5,34,334	••	5,561	4,136	48,836
Loans to Notabilities		44,700		• •	• •	•	8,39,229
Other Advances		• •	• •	8,39,229	• •	• •	0,00,220
Total		7,75,894	5,34,334	8,39,229	5,561	4,136	21,59,154
						<del></del>	

The balances on the books of the Accountant General, Central Revenues, consist of amounts outstanding against the Bhopal State (Rs. 5,00,000), the Shahpura State in Rajputana (Rs. 2,22,500), the Chiefship of Lawa (Rs. 8,694) and Mirza Khairuddin of the Delhi Family (Rs. 44,700). A petty balance of interest in case of Shahpura State was paid early in 1941-42.

The balance of Rs. 5,34,334 in the Bombay books represents advances made by the Central Government to the Crown Representative for loans to certain Indian States in the Western India States Agency.

The balance of Rs. 8,39,229 under 'Other Advances' in Bengal represents the amount of loans granted to the Eastern States Joint Police Fund and is sub-divided into the following two detailed heads:—

	ζ.						Total.	8,39,229
Capital	••	• •	• •	• •	• •	• •	Dr.	0,21,000
Recurring	• •	• •	••	• •	* -		T) n	3,21,896
December					• •	• •	Dr.	5,17,333
	0							Ks.

The loan for recurring expenditure is free of interest while that for capital expenditure bears interest. The entire amount advanced during 1939-40 on account of recurring loan has been recovered in 1941-42. The recovery of principal in respect of the 'Capital' portion of the loan will commence after the loan has been finally declared as closed. The balances in respect of the loans have not yet been accepted by the authorities concerned.

The balance under 'Loans to Indian States' in Assam represents loan granted to the Siem of Nonstoin by the Crown Representative.

The sum of Rs. 4,136 in Sind represents the balance outstanding on 31st March, 1941 out of the advance of Rs. 6,000 made to Mir Khudayar Khan, son of His Highness Mir Abdul Hussain Khan Talpur.

#### Loans to Indian States .. .. Dr. Rs. 10,21,50,390

174. It represents (i) the balance of loans made by the Central Government to Indian States prior to 1st April, 1937, and (ii) loans to Indian States subsequent to that date in pursuance of direct arrangement with the States—in most cases a business one. The following are the details:—

			_					Ks.

						20001		

The balance on the books of the Accountant General, Central Revenues, consists of outstandings against the Bundi and the Tonk States.

The balance on the books of the Accountant General, Madras, represents the amount of loan advanced to the Cochin Government in connection with its harbour works.

The balance on the Bombay books is composed of outstandings against various States.

The balance in Bengal represents the balance of the loan to the Tripura State.

The balance in the Punjab represents the balance of the loan due from the Bahawalpur State in connection with the State portion of the Sutlej Valley Project and the balance of Account Current transactions. As under the terms of the agreement it is not possible for the Bahawalpur Durbar to verify the balance of the loan on account of the Sutlej Valley Project at the end of each year, the Auditor General has dispensed with the annual certificate of acceptance by the Durbar.

The balance in the North-West Frontier Province represents loans outstanding against two Indian States. These loans are free of interest.

180. The balance under this head represents an advance to the Bombay, Baroda and Central India Railway Company originally made from the assets of the Company's Provident Fund. Since 1917, when the assets and liabilities of the Company's Railway Provident Fund were taken over by Government, it has virtually become a loan from Government to the Company.

#### Advances to Cultivators ... Dr. F.s. 26,10,131

181. The balances under this head represent outstandings on account of advances made under the Land Improvement Act and the Agriculturists' Leans Act and loans under the Co-operative Societies Act. The detailed accounts of these loans are maintained by District and Revenue Authorities who are also responsible for watching the recoveries of principal and interest. The verification of these balances, therefore, consists chiefly in agreeing the ledger balances with the aggregate of the balances worked out in the broadsheets kept in the Civil Accounts offices; the latter being reconciled with the administrative balances certified by the District or other responsible officers concerned. Acceptance certificates are still awaited in the case of Baluchistan and Central India and Port Blair under Central Rs. 770 in the Andamans. Rs. 95 in Central India and Rs. 946 in Baluchistan were written off. It has been reported by the local Administration that the progress of repayments of loans in Coorg under Agriculturists' Loans and Land Improvement Acts during the year under report was not quite satisfactory as only a little over 33 per cent. of the demand was collected before the close of the financial year. This demand, however, included a considerable amount of accumulated arrears. Postponements were granted in deserving cases while coercive steps were taken against defaulters for the recovery of the outstanlings.

#### Advances under Special Lavs ... Dr. Rs. 37,58,278

182. The balance under this head is made up of Rs. 36,26,969 being the amount recoverable from the Delhi Joint Water Board and Rs. 1,31,309 on account of advances made to the Istimrardars of Ajmer. As famine was prevailing in Ajmer-Merwar until S ptember, 1940, repayments of advances to the Istimrardars of Ajmer were not regularly made during 1940 41.

#### Miscellaneous Loans and Advances . . . Dr. Rs. 43,56,448

183. The balance on the books of the Accountant General, Central Revenues, is made up partly of the balance of loans granted to the New Delhi Gymkhana Club, the Young Women's Christian Association, the Roman Catholic Church, New Delhi, Beawar Central Co-operative Bank and Delhi Central Electric Power Authority, Limited, and partly of the balance of the amount representing the cost of munitions supplied to the Tibetan Government during 1933, which has been treated as a loan free of interest and repayable in annual instalments of Rs. 1 lakh commencing from 1934-35. The conditions of the loans have been fulfilled in all cases except in case of loan to the Roman Catholic Church, New Delhi, where the delay in the annual payment was condoned by the Governor General in Council and in the case of the Beawar Central Co-operative Bank. Limited, in which case the repayment of principal during the year was postponed under the orders of the Central Government. The balance under Central Revenues also includes the balance of loans granted to the miners at Khewra for building houses. The balance in Bihar represents the loan granted to the Rescue Station Committee, Dhanbad, to enable it to meet the initial expenditure in connection with the establishment of the Rescue Stations. The balance in North-West Frontier Province represents (i) the loan of Rs. 60,000 granted in 1939-40 to the Post Fund, Wana, and (ii) the loan of Rs. 28,000 granted during the year under report to the Post Fund, Razmak, for constructing bazars at Wana and Razmak respectively. The loan to the Post Fund. Wana hears interest at 4 per cent. and is repayable in ten equated instalments of principal and interest. M274AGCR

The repayment of the first instalment of principal and interest was due in February, 1941, but it was actually made in April, 1941. The delay was condoned by the Central Government. The loan to the Post Fund, Razmak, is repayable in five annual equated instalments of principal and interest commencing from 1941-42. It bears interest at  $4\frac{1}{2}$  per cent.

#### Loans to Government servants .. Dr. Rs. 2,04,680

184. This sum represents the balance of temporary advances granted to Central Government servants for house-building, purchase of motor cars and similar purposes at prescribed rates of interest. The distribution between Civil and Noncivil is as follows:—

						,	$\mathrm{Rs}_{ullet}$

(1)	,		House-building Advances	Advances for the purchase of motor cars	Passago Advances	Other Advances	Total

(a) The credit balance is due to the recovery from an officer of the Provincial Government who has been temporarily transferred under Central Government, having been erroneously accounted for in the Central portion of the accounts instead of Provincial. The balance has been cleared in 1941-42.

186. Under Motor Car advance in Central Revenues there is a discrepancy of Rs. 182 between the ledger and broadsheet balances. The discrepancy is under adjustment. Acceptance certificate is awaited in one case. Under Passage Advance under Central Revenues, acceptance certificates are awaited in two cases.

<sup>188.</sup> Posts and Telegraphs.—Acceptance certificates are still awaited in two cases for "House-building Advances", one case for "Passage Advance" and two cases under "Other Advances". Of the two cases under House-building Advances, the certificate of acceptance could not be obtained in one case due to the death and in the other due to the dismissal of the Government servants concerned. Proper action has, however, been taken to recover the dues in both the cases. The credit balance of Rs. 192 under "Motor Car Advances" is under investigation.

Defence.—House-building advances.—Acknowledgments for the balances are awaited in three cases, in two of which the individuals concerned are serving overseas. In one case, the individual concerned died leaving a balance of Rs. 280-8-0 including interest. This amount has since been realised from his legal heir and adjusted in the accounts for 1941-42.

Railways.—The acceptance of the balances is wanting in one case each on the Ea t Indian, the Madras and Southern Mahratta and the Great Indian Peninsula Railways. A sum of Rs. 254 including interest (Rs. 21) on account of outstanding house-building advance was written-off during the year on the Bengal-Nagpur Railway.

190. The balance under this head represents the difference between the receipts and payments in respect of Inland Money Order issues of the years 1939-40 and 1940-41. The accounting process is not, however, complete unless the ledger balance has been reconciled with the actual amount of unpaid money orders picked out from the lists of money orders issued. In practice, there are always some differences between the two sets of accounts due to errors in the various stages of work done in Post Offices and the Audit Offices. As these differences represent the extent to which accounting methods fall short of an absolute standard of efficiency, they are reported annually to the Auditor General of India to enable him to judge the efficiency of audit in this field. The amount of unexplained difference at the end of 1940-41 in respect of Money Orders issued in the year 1938-39 reported to the Auditor General, was Rs. 12,818.

Cash Remittances and Adjustments between Officers rendering accounts to the same Accountant General or Comptroller

191. The following are the details:—

2,15,38,424

- 192. This head comprises two different kinds of transactions, one being remittances in actual cash between treasuries and departments rendering accounts to the same Account Office; each separate remittance of this kind is watched through a remittance register. The other class of transactions are purely book adjustments made within the accounts of the same Account Office, which are watched through separate registers maintained for the purpose.
- 193. The debit balance under 'Mint Remittances' in Bengal is due to erroneous adjustments which have been set right in 1941-42 and that in Bombay represents mainly the debits on account of the value of silver issued from the surplus silver stock of the Bombay Mint for quaternary coinage and the outturn value of uncurrent silver coins transferred to the surplus silver stock account of the Bombay Mint in March, 1941 for which corresponding credits were received in 1941-42. The credit balance under "Public Works Remittances" in Baluchistan includes a sum of Rs. 8,105 relating to the head "Public Works Cheques" which differs from the balance shown in the separate register by Rs. 114. The difference is under settlement.
- 194. The head *Baluchistan Suspense*, which appears on the books of Central Revenues and Baluchistan, is a running account of transactions originating in the accounts of Central Revenues on account of Baluchistan and in the accounts of Baluchistan on account of Central Revenues. The balance represents the balance of transactions between the accounts of Central Revenues and Baluchistan which could not be adjusted completely in the year under report.

The head Coorg Suspense represents similar transactions between Coorg and Madras in the books of the Accountant General, Madras.

196. The details are:

(Credits + . Debits -.)

		·	~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~			(Crean	s +, Debits	, <sub>)</sub>

Total	909	+871	+3,494	394	+150	+125	-15,386	-12,049

197. Prior to the introduction of the procedure detailed in paragraph 198 below, with effect from the 1st October, 1940, the amounts received on issue of bills, etc., were credited to this head and the amounts paid upon them were debited to it. This head, therefore, ordinarily showed a credit balance equal to the amount of bills outstanding. The issue of Supply Bills and Remittance Transfer Receipts has been discontinued from 1st October, 1940.

The debit balances in Central Revenues and the Punjab were due to errors in adjustments since rectified in 1941-42, while that in Sind was due to non-receipt of credits from the Punjab.

#### Reserve Bank of India Remittances

.. Cr. Rs. 8,71,000

3,51,671

198. A scheme was introduced by the Reserve Bank of India with effect from 1st October, 1940 to standardise and extend remittance facilities throughout India and Burma. At places where the Reserve Bank has no offices of its own or is not represented by offices or branches of the Imperial Bank, the issue and payment of telegraphic transfers and drafts on Reserve Bank account is undertaken by Government treasuries and sub-treasuries as "Treasury Agencies" of the Bank. Receipts and payments taking place in treasuries on this account are accounted for under this head, and are initially carried against Government balances until cleared with the Bank through daily advices of drawings and encashments. The debits and credits booked under this head are ultimately cleared by corresponding adjustments under the head "Reserve Bank Deposits".

The details of the balance by circles of account are as under:-

						N	et Cr. Rs.	8,71,000
							180	8,71,180
North-West 1	Frontier Pr	ovince	• •	• •	• •	• •		8,38,911

Central Reve	nues	• •	• •	• •			• •	21,797
							Rs.	$\mathbf{R}\mathbf{s}.$
							Dr.	$\operatorname{Cr.}$

In Central Revenues and Bombay, the outstanding balances were due to late receipt of treasury schedules and in other cases, mainly to erroneous adjustments. The balances have all been cleared in 1941-42.

Remittances adjusted on the Central Books (Central Adjusting Account for 1940-41) ... Dr. Rs. 1,503 Cr. Rs. 521

199. The above balances will be adjusted in the accounts for 1941-42.

### Adjusting Account between Central and Provincial Governments ... Dr. Rs

200. The transactions between the Central and the Provincial Governments are settled by the correction of their respective balances through the Reserve Bank of India. Until this correction is effected, the transactions are kept in the books of the originating Account Circle under the head Adjusting Account between Central and Provincial Governments. The above balance represents the outstanding amount for which monetary settlement could not be carried out in the Reserve Bank's account for the year 1940-41.

Adjusting Account with Railways ... Dr. Rs. 51,824

Account with Provinces, etc. ... Dr. Rs. 3,48,589

202. Owing to the pro forma separation of the balances of Railways from the balances of the Central Government from 1st April, 1939, all transactions with or on behalf of Railways arising in the accounts of the Central (non-Railway) and Provincial Governments are adjusted with the Reserve Bank against the balance of the pro forma Railway Fund. These two major heads have been opened for the initial adjustment of transactions with Railways. The former head is operated upon by all Civil Accountants General, while the latter head is used by the Railway Accounts officers concerned in connection with the transactions originating in the Railway accounts which are adjustable against the balances of the Central and the Provincial Governments. The above balances represent the outstanding amounts for which monetary settlement could not be carried out in the Reserve Bank's accounts for 1940-41.

- 203. The balance under the head "Adjusting Account with Railways" consists of—
  - (1) Rs. 34 (credit) on the books of the Controller of Supply Accounts (Civil) and
  - (2) Rs. 51,858 (debit) on the books of the Accountant General, Central Revenues.

The balance outstanding under the head "Account with Provinces, etc." viz., Rs. 3,48,589 was on the books of the South Indian Railway (Rs. 17,624 credit) and North Western Railway (Rs. 3,66,213 debit).

The balance under "Adjusting Account with Railways" has been cleared and that under the head "Accounts with Provinces, etc. "is being cleared in 1941-42.

Accounts between Departments . . . . . Dr. Rs. 12,84,848
Cr. Rs. 3,96,88,690

204. The balances recorded under this head differ in kind from those reviewed in the previous paragraphs, as they represent balances between two of the sets of accounts in respect of the amount by which one set of accounts could not take up the debits and credits passed on to it by the other. As balances, therefore, they do not exist elsewhere than upon the Central books, for each local Account Officer writes off each year the amounts which he passes on to another. The following are the separate ledger balances under this account:—

Accounts between Civil and Civil	Dr. Rs.	Cr. Rs. 1,27,94,578
Exchange Accounts between Defence Accounts Officers (including Navy)	6,38,880	• •
Exchange Accounts between Posts and Telegraphs and Defence Services (including Navy)	67,469	••
Exchange Accounts between Civil and Posts and Telegraphs		11,83,481
Exchange Accounts between Civil and Defence Services (including Navy)	• •	2,51,32,132
. Total	7,06,349	3,91,10,191
Net Cr	Rs. 3,8	4,03,842

205. The net credit of Rs. 3,81,03,81	$\mathfrak{D}_{\mathbf{r}}$ .	Cr.			
				Rs.	Rs.
Cheques and Romittance Transfer Roceipts			••	3,92,573	2,80.58,631
Miscell recurs Items		• •		8,92,275	1,16,35,059
,	•	Total		12,84,848	3,96,88,690
,		Net Cr.	•••	Rs. 3,84,	03,842

203. The debits under Cheques and Remittance Transfer Receipts are on account of payments made on cheques during 1910-41 for which corresponding credits were not afforded till the following year, while the credits under the head represent the amount of cheques and transfer receipts issued in 1940-41 but not paid during the year. The outstandings under Miscellaneous Items have been mostly adjusted in the accounts for 1941-42 with the exception of a few disputed claims. The adjustment of these items is expected to be included in the accounts for 1941-42. The progress of adjustment has been generally satisfactory. The outstandings are subjected to a careful scrutiny in the office of the Auditor General of India and steps are taken to adjust them as expeditiously as possible.

Items Adjustable in India	• •	• •	• •	19,238	
		Total	• •	19,238	9,112,484

207. It comprises transactions, mainly of a miscellaneous character, passed on from England to India or *vice versa*, for adjustment in the accounts of the other and represents the net balance in respect of the amounts by which each set of accounts could not take up the debits and credits passed on by the other. The outstanding amount is normally an asset or liability to Government.

#### SECTION T.—TRANSFER OF CASH BETWEEN ENGLAND AND INDIA.

India .. .. .. Dr. Rs. 2,00,00,000

208. Cash remittances from India to England and vice versa of funds belonging to India are made through the Reserve Bank of India. These remittances are brought to account under this head.

The balance represents the rupee equivalent of £1,500,000 refunded by the Secretary of State to the Reserve Bank of India between the 29th and 31st March, 1941 against which the opposite payment in India was adjusted by the Bank on the 1st April, 1941.

SECTION V.—CASH BALANCE	INDIA	• •	Rs.	13,76,56,261
	ENGLAND		£	683,978

209. The Cash Balances in India were distributed as follows:-

-		Provi	nce.			Oash in District Treasuries.	At credit of Government with the Reserve Bank of India and its branches.
					•	Rs.	Rs. '
India General	• •		1.1	• •	4.6	9,52,050	13,56,57,637

						19,98,624	13,56,57,637
					Total		Rs. 13,76,56,261

The minus balance shown against Orissa represents the amount of remittance in transit at the end of the year.

Under "India General" there was a credit balance of Rs. 21,117 against Iran due to overdrafts during 1940-41, which have since been regularised.

- 210. The figures under Cash in District Treasuries in some Provinces include the amount of remittances in transit at the close of the year. The treasury balances have all been agreed with the cash balance reports for March, 1941 except in the case of Iran and Bushire under India General and Central Provinces and Berar. There was a small difference of 5 pies in Bushire in the calculation of rials converted into rupees. No cash balance report was received in the case of Iran. The balance against Central Provinces and Berar, which represents remittance in transit, was more than the corresponding figure shown in the cash balance report for March, 1941 by Rs. 12,000. The discrepancy has been cleared in 1941-42. The cash balance of the Central Government in India with the Reserve Bank of India at the end of 1940-41 including the balance of the Railway Fund created pro forma stood at Rs. 13,56,57,637 against Rs. 13,56,39,006 reported by the Bank. The difference has been settled in the accounts for 1941-42.
- 211. The balance against India General includes a sum of Rs. 65,378 being the closing balance under the head "Foreign Remittances" outstanding on the 31st March, 1941. Out of this a sum of Rs. 61,778 has been cleared and the balance of Rs. 3,600 will be cleared before the close of the year 1941-42.
  - 212. The cash balances in England were distributed as follows:—
